DIRECTIONS FOR USE

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

FOR HOUSEFLIES, MOSQUITOES AND GNATS: Close all doors and windows. Point nozzle upward. Direct the spray next to ceiling at the corners, in crevices, windows and other light places which attract these insects. Do this same with most of the insects in treated area. Keep the room closed for at least 30 minutes. Ventilate the room when treatment is completed.

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

FOR CRAWLING INSECTS: Roaches, earwigs, sowbugs and spiders. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

CAUTION

Harmful if swallowed. Avoid contamination of feed and foodstuffs. Remove pets, birds and cover fish aquariums before spraying. Do not use on edible crops. When treating edible product areas of food processing plants, restaurants or other areas where food is prepared or processed, foods should be removed or covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

WARNING: Contents under pressure. Do not use or store near heat or open flame. Do not puncture. Never throw container into fire or incinerator. Exposure to temperatures above 130°F. may cause bursting.
