1 ANIMAL PESTS

2 CONTROL HOUSEHOLD PESTS:

FOR HOUSEFLIES, MOSQUITOES AND GNATS Close all doors and windows. Point nozzle upward. Direct spray, if possible, to all parts of the room especially windows and other light surfaces which attract these insects. Fly the room with mist then leave the treated area. Keep the room closed for 24 hours. Do not re-enter the room when treatment is completed.

1. SHAWNEE INSECTS: Roaches, earwigs, grain sawbugs, spiders and centipedes. Spider hunting is best in places such as cracks, moist areas, baseboards around pipes and walls, under old boards, in garages and storage areas. Spray directly or insects where you see them. Earwigs are points of entry. Spray cracks where possible. Repeat as necessary.

3 RUISSANCE PESTS ON OR ENTERING BUILDINGS

AA - All efforts will be made in late evenings when traffic is heaviest Sunday, Tuesday & Thursday evenings contacting dozing objects as per the Report it is recommended Sunday, Tuesday & Thursday nights that enter by 4:00.
