

TO CONTROL INSECTS IN KENNELS AND ANIMAL QUARTERS

Dilute at the rate of 13 fluid ounces in gallon of water or 2 fluid ounces in 16 fluid ounces of water.

Remove pets before treating area and ventilate thoroughly before allowing them to re-enter treated area.

For rapid cleanup of fleas and ticks in kennels, apply this dilution in a good machine adjusted to deliver coarse droplets. Apply to the point of runoff with special attention to cracks and crevices and other insect hiding places. Fresh bedding should be placed in animal quarters following treatment.

To control flies, mosquitoes and gnats in kennels, apply this dilution in a good sprayer adjusted to deliver a fine mist. Use at the rate of approximately 1 ounce for 1000 cubic feet of space. Fill the enclosed area with mist wherever practical. Keep doors and windows closed for 10 minutes or more after application. Do not remain in treated areas and ventilate after treatment is completed.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if swallowed. Avoid contamination of feed and utensils. Avoid contamination of feed and utensils by keeping them well covered while spraying the area.

Remove pets and animals from treated area before spraying.

STATEMENT OF PRACTICAL TREATMENT

Swallowing: Call a physician immediately. (Enter immediately. Do not induce vomiting unless a physician has been consulted. If material was taken internally, call a physician immediately.)

Inhalation: Remove victim to fresh air. Apply artificial respiration if indicated.

On Skin: Remove contaminated clothing and wash affected areas with soap and water.

In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dilutions of this concentrate should be made shortly before use in the quantity needed for the individual application. Water solutions should not be kept for future use.

TO CONTROL INSECTS ON ANIMALS

Sponge bath and/or dilute this concentrate at the rate of 1 fluid ounce in 23 fluid ounces of water or 2 tablespoons of concentrate in 2 1/4 cups of water or 6 fluid ounces (12 tablespoons) in 1 gallon of water.

For rapid control of ticks, fleas and flies on cats and dogs, sponge solution on thoroughly wetting skin over entire animal or dip the animal. Do not rinse. Allow solution to remain on animal in cases of heavy tick infestations on long haired cats or dogs, dilute 1 fluid ounce of concentrate to 11 fluid ounces with water (2 tablespoons of concentrate in 1 1/4 cups water or 12 fluid ounces (24 tablespoons) of concentrate in one gallon of water.

Mist Spray: Dilute this concentrate at the rate of 7 fluid ounces in 1 gallon of water or 1 fluid ounce of concentrate in 18 fluid ounces of water. For rapid control of ticks, fleas and lice using a mist spray. To insure thorough coverage, part the fur by stroking against the lay of the hair as spray is applied. Spray ticks directly. Apply to matted fur lightly.

For heavy infestations of ticks, fleas and chiggers, repeat treatment as necessary when infestation returns.

Ticks are only an occasional pest of cats. This product will control ticks on cats should they occur.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given hereon.
