To kill	Cockroaches	Spiders
	Ants	Crickets
	Silverfish	

Spray areas where these pests are found or may hide, including dark corners, rooms and closets, cracks, crevices, along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and under garbage cans, plumbing and other utility installations. Pests flushed from hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary.

To kill:	Carpet Beetles
-----------------	-----------------------

Spray edges of carpeting and under carpeting and rug. Make localized application to the floor and baseboards. Spray directly into cracks, closets and in hidden areas of flooring. Repeat as necessary.

To kill:	Brown Dog Ticks
-----------------	------------------------

Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, windows and door frames, wall coverings. Application should be repeated as necessary. Fresh bedding should be placed in animal quarters following treatment. **DO NOT TREAT ANIMALS WITH FORMULATION.**

To kill:	Flies	Small Flying Moths
	Mosquitoes	Wasps

For outdoor use only as an aid in reducing annoyance from these pests. Spray under eaves of screens, doors, window frames or wherever these insects congregate. Also treat surfaces around light fixtures or porches in areas with other places where these insects alight or congregate.

To kill	Flies	Outdoors
	Chiggers	Ants

For treatment of localized infestation of these insects in outdoor areas, spray weeds and bushes in damp areas around the home thoroughly. Avoid spraying desirable plants. Thoroughly wet hills and runways. Repeat application at infestation warrants and as reinfestations occur.

Do not use in areas where people are handling if this material not in strict accordance with treatment directions.
