MAR 6 1980

ACTIVE INGREDIENT
SODIUM HYPOCHLORITE 12.5%
INERT INGREDIENTS 87.5%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If in eyes, wash with plenty of soap and water. If on skin, flush with water for at least 15 minutes. Get medical attention if swallowed, drink large quantities of milk or gelatin solution or, if these are not available, drink large quantities of water. Do NOT give emetics or other acids. Do NOT induce vomiting. Get prompt medical attention.

See additional precautions on side panel.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABEL DIRECTIONS FOR USE.

DIRECTIONS FOR SWIMMING POOL CHLORINATION:
For a new pool or for long term use, superchlorinate the pool with hypochlorite solution for each 1000 gallons of water. The 1 1/2 ppm average chlorine by weight.
1) Adjust pool water pH to 7.2 range and maintain.
2) Add majority of a water disinfectant to the pool. Maintain an average chlorine residual of 0.8 to 1.0 ppm. 1 ppm is the minimum chlorine residual for each 1000 gallons of water. 1.5 ppm is the maximum chlorine residual. If water is cloudy, add chlorine until the water is clear and then add the remaining chlorine to bring the chlorine residual to 1.0 ppm.

DIRECTIONS FOR DOMESTIC USE OF PORTABLE TOILETS:
1) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 2) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 3) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 4) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 5) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 6) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 7) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 8) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 9) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank. 10) Add 1/2 cup of sodium hypochlorite solution to the toilet water in the toilet tank.

STORAGE AND DISPOSAL: Store in a cool, dry place. Do not store in plastic containers. Do not store in metal containers. Do not store in glass containers. Do not store in cardboard containers. Do not store in paper containers. Do not store in fabric containers. Do not store in wood containers. Do not store in plastic containers. Do not store in metal containers. Do not store in glass containers. Do not store in cardboard containers. Do not store in paper containers. Do not store in fabric containers. Do not store in wood containers.
