

TIGER Livestock Dust

ACTIVE INGREDIENTS

Malathion (0,0-Dimethyl Dithiophosphate or Diethyl Mercaptosuccinate)	4.0
Methoxychlor Technical	4.0
(equivalent to 4,4'-2,2'-bis(4-methoxyphenyl)-1,1,1-trichloroethane and 0.6% other isomers and reaction products)	
INERT INGREDIENTS	91.0
Total	100.0

CAUTION:

TIGER Livestock Dust is a mixture of Malathion and Marlate P for use on Swine, Sheep, Dairy and Beef Cattle.

Malathion is a cholinesterase inhibitor. Not for use or storage in or around the home. Do not treat animals under 1 month of age.

CATTLE: (Beef and Non-lactating) **DIRECTIONS FOR USE**

To control horn flies, lice and ticks make thorough application to animal working dust into the hair. Repeat every 2 weeks if necessary. Do not treat non-lactating dairy cattle within 2 weeks of freshening.

DAIRY CATTLE: To control horn flies apply 2 hearing tablets (each 1/2 oz.) to back and neck of animal. Repeat other into hair. Do not apply within 6 hours of milking or during milking. Repeat every 2 weeks if necessary.

FOR FACE FLY (control on Beef Cattle)

To aid in controlling Face Flies, dust the face of cattle thoroughly. Repeat as needed and as may be necessary.

SWINE: To control ear and fly thoroughly to animals necks and tails. Repeat in 10 days and thereafter as needed.

SHEEP: To control lice treat animals thoroughly. Repeat 2 to 3 weeks later and at shearing time. Repeat as needed on non-lactating animals.

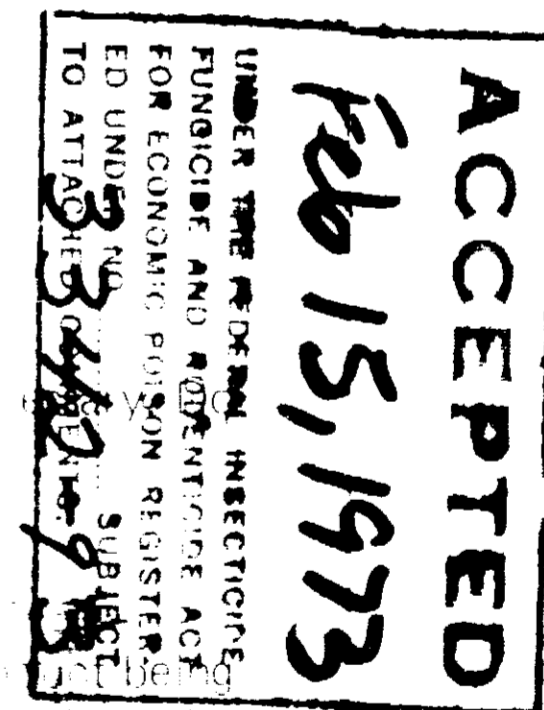

CAUTION:

NOTICE: For information on the use of this product, a label will be attached to the container. The label contains directions for use beyond the limits of the material hereon and the quantity of material to be applied. The attached label is the only one to be retained and not used as a replacement for the original label attached to the container. This product is a pesticide and may be injurious to man, animals, plants and property. Use as with other insecticides and other materials.
