

ONLY THIS MUCH SWEPCO DISINFECTANT DETERGENT CLEANS, DISINFECTS, AND DEODORIZES MORE THAN 2,000 SQUARE FEET OF FLOOR AREA

Since SWEPCO DISINFECTANT DETERGENT is a concentrate, it is designed for economical use. At the recommended dilution of one ounce of SWEPCO DISINFECTANT DETERGENT to a gallon of warm water (1 1/4 ounce to one Imperial Gallon in Canada), it is easy to see that a little will go a long way! In fact, just the small one ounce quantity pictured above, when added to one gallon of water, will handle the cleaning, disinfection, and deodorizing of more than 2,000 square feet of floor area! "Wide-spectrum" killing action and economy of use are all delivered in one package with SWEPCO DISINFECTANT DETERGENT.

DESCRIPTION

SWEPCO DISINFECTANT DETERGENT is a "wide-spectrum", multi-purpose germicide that kills most dangerous bacteria on contact. At the same time, it breaks down dirt and grime deposits and floats them off the surface. It is one of the most effective phenolic type germicides, and is also effective as a fungicide, tuberculocide, and deodorizer when used at a 1:128 (one ounce one gallon of water) dilution ratio of SWEPCO DISINFECTANT DETERGENT to warm water.

PURPOSE

SWEPCO DISINFECTANT DETERGENT does the job of five different products. It is at one time a full range disinfectant, a superior cleaner, a powerful fungicide, an effective tuberculocide, and a pleasant deodorizer. It can be used safely on walls, floors, basins, restrooms, locker rooms, shower stalls, and other similar areas requiring disinfection.

APPLICATION

SWEPCO DISINFECTANT DETERGENT is simple, quick, and easy to use. Just add one ounce (30 ml.) to one gallon (3.79 liters) of warm water. In areas suspected of severe contamination or high organic load, add two ounces (60 ml.) to one gallon (3.79 liters) of warm water. In hospitals where areas may be contaminated by *Ps. aeruginosa*, dilute 12 ounces (360 ml.) of SWEPCO DISINFECTANT DETERGENT in one gallon (3.79 liters) of warm water. Thoroughly scrub all surfaces and allow to stand for at least 10 minutes. Then rinse with clean water.

CAUTION

KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS.
HARMFUL IF SWALLOWED.

Use only for disinfection. Do not use for contact therapy. Mix with the
water in a clean container. Do not use for contact therapy. Do not use for
disinfection of food or food containers. Do not use for contact therapy.
AVOID CONTAMINATION OF FEED AND FOODSTUFFS.

DO NOT TAKE INTERNALLY
