

Two-fold Technical Mint Base, when diluted 1:1 with water by weight will yield a product as described in the specimen label designated as "Disinfectant" E.P.A. Reg. No. 3367-36. Confirmatory tests that dilution has been accurately compounded, will require three (3) samples tested by AOAC Use Dilution Test vs. S. Chlor utilizing 50 replicates per sample. If specimen label is not closely followed additional data may be necessary to support registration with E.P.A. by Distributor as Manufacturer.

Use glass, stainless steel or lined containers for storage, mixing and shipment.

**Danger:** Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

**First Aid:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**WARNING:** Flammable. Keep away from heat and open flames.

**Container Disposal:** Do not re-use empty container. Wash thoroughly with water and detergent. Discard in a safe place.
