

DIRECTIONS FOR USE

NOTE — This spray may be applied with a sprayer or paint brush so as to wet surfaces over which insects crawl or crevices in which they live.

ROACHES — Remove all dishes, food and utensils from the area to be sprayed. Make spot applications to infested roach haunts—behind sinks, into cracks and crevices, the underside of all shelves, the underside of all drawers, baseboards, pipeholes in walls, and in cracks of kitchen cupboards.

SPIDERS — Spray all infested baseboards, the perimeter of each window, and any other place they might frequent.

SILVERFISH — Spray under baseboards, the edge of carpeting, under enclosed bathtubs, in the basement spray the mudsill or plate and around the perimeter of the basement floor.

SUPER-TOX

ROACH SPRAY

CONTROL OF

Roaches - Silverfish - Spiders

ACTIVE INGREDIENTS:

Pyrethrins I & II	00.050%
Technical Piperonyl Butoxide*	00.125%
