Subject: Alternate Brand Names
Application Date 3-18-09

Dear Product Manager,

Enclosed are the Proposed Alternate Brand Names:

- Maxi-Clor II: EPA Registration # **3432-69**
Proposed Alternate Name is:
Highland Pool & Spa Brand, Chlorinating Granules
- Maxi-Clor Super 3" Chlorinating Tablets: EPA Registration # **3432-61**
Proposed Alternate Brand Name is:
Highland Pool & Spa Brand, Super 3" Chlorinating Tablets
- Maxi-Clor Chlorinating Tablets: EPA Registration # **3432-24**
Proposed Alternate Brand Name is:
Highland Pool & Spa Brand, 1" Chlorinating Tablets
- Maxi-Clor Chlorinating Sticks: EPA Registration # **3432-36**
Proposed Alternate Brand Name is:
Highland Pool & Spa Brand, Chlorinating Sticks
- Pro Algacide: EPA Registration # **3432-31**
Proposed Alternate Brand Name is:
Highland Pool & Spa Brand, Algacide-30
- Algitec 7.0: EPA Registration # **3432-79**
Proposed Alternate Brand Name is:
Highland Pool & Spa Brand, Copper Algacide

and the corresponding Form 8570-1 and a Stamped copy of the accepted labels.

Sincerely,

Al Pastore
Technical Director

Highland POOL & SPA

1" Chlorinating Tablets

CONCENTRATE • STABILIZED

- SLOW DISSOLVE • COMPLETELY SOLUBLE
- NO MINERAL SCALE BUILD-UP
- SUPER CHLORINATING TABLETS FOR WATER DISINFECTION
- 24-HR. CHLORINE RESIDUAL FOR ROUND THE CLOCK ACTIVITY

ACTIVE INGREDIENTS:

Trichloro-s-triazinetriolone.....	99%
OTHER INGREDIENT.....	1%
TOTAL 100%	

Approximately 90% available chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panel for precautions in handling.

Net Wt. 2 lbs.

EPA EST. NO. 3432-PART 1 • EPA REG. NO. 3-32-24

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breath dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID	
IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor center for treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF INHALED	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage.	

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary. This product is meant to help keep bacteria and algae under control in swimming pools.

DIRECTIONS FOR USE:

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
1. Before using Chlorinating Tablets make sure that there is a sufficient chlorine residual (3.5-5.0 ppm) in the swimming pool by superchlorination. Next day add 1 lb. Chlorine Stabilizer (Booster) for each 4,000 gallons of water.
 2. Place approximately 7 tablets for 2500 gals. of pool water either into a tablet dispenser and float it in the pool or directly into skimmer basket if one is available. In no case should tablets be thrown directly into or on a vinyl liner as bleaching will result.
 3. A good pool water test kit should be used at least once a day to check both pH and chlorine levels. pH should be between 7.2-7.6 and adjusted as necessary. Chlorine should be between 1-2 ppm. If chlorine level is too low, add more tablets until there is enough to maintain the 1-2 ppm.

This product can be used in any dispenser that uses Chlorine Concentrate tablets or sticks. Should not be mixed with any other kind of chlorine as an explosion could result. **NOTE:** During heavy bathing loads, very hot weather, rain, etc. and at least once a week, chlorine residual should be raised to 3.5-5.0 ppm with granular chlorine (superchlorinated). It is preferable to do this after swimming day so that pool will have a chance to come back to the 1-2 ppm before swimmers go back in next day. Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine.

Tablets will last approximately 5-7 days depending upon temperature and amount of water flow. Since there are approximately 48 tablets to the pound, a 2 lb. jar will last a 2,500 gal. pool 7 weeks; a 5,000 gal. pool approximately 3 1/2 weeks; and a 10,000 gal. pool a little less than 2 weeks. A 4 lb. jar will last a 2,500 gal. pool 14 weeks; a 5,000 gal. pool 7 weeks; and a 10,000 gal. pool approximately 4 weeks, etc.

STORAGE AND DISPOSAL: Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
