Subject: Maxi Chlor Chlorinating Tablets
EPA Reg.#: 3432-24
Notification Date: July 25, 2012
Receipt Date: July 25, 2012

Dear Ms. McCombie:

This acknowledges the receipt of your Amendment application dated July 25, 2012 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended.

Proposed Label Amendment:

The initial submission was a Notification to revise the "Environmental Hazards" statement (change 5 gallons to 5 lbs) and correct typo "breathe" for Maxi Chlor Chlorinating Tablets (EPA Reg.#: 3432-24). The original submitted proposed label dated July 25, 2012 (pin-punch 7/25/12) was updated and revised dated August 14, 2012 (pin-punch 8/14/12) to:

1. Revise the order of First Aid statements.
2. Revise the Precautionary Statements.
3. Change advisory "should" to mandatory word "must".
4. Increase the re-entry level to 4 ppm chlorine for this product.
5. Update Storage and Disposal Statement for residential/household uses.

General Comment:

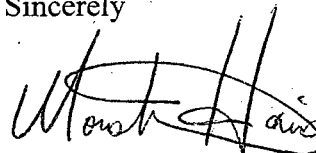

Based on the review of the material submitted, the amendment for Maxi Chlor Chlorinating Tablets (EPA Reg# 3432-24), revised label dated August 14, 2012 (pin-punch 8/14/12) is acceptable.

A copy of the accepted stamped label is enclosed for your record. Please submit one copy of your final printed label/labeling before distributing or selling the product bearing the revised label/labeling.

This amendment and this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact liem.david@epa.gov or call (703) 305-1284.

Sincerely

A handwritten signature in black ink, appearing to read "Monisha Harris". The signature is stylized with a large, sweeping initial "M" and "H".

MAXI CLOR CHLORINATING TABLETS

CONCENTRATE • STABILIZED

[SLOW DISSOLVE] [COMPLETELY SOLUBLE]
[NO MINERAL SCALE BUILD-UP]
[SUPER CHLORINATING TABLETS]
[FOR WATER DISINFECTION]
[24-HR. CHLORINE RESIDUAL FOR ROUND THE CLOCK ACTIVITY]

ACTIVE INGREDIENTS:

Trichloro-s-Triazinetrione 99%
OTHER INGREDIENT 1%
TOTAL 100%

Approximately 90% available chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER

See [back] [side] panel for additional Precautionary Statements

FIRST AID

Have the product container or label with you when calling a poison control center or doctor for going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

[If container size is less than 50 pounds, use the following Environmental Hazards statement]

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

[If container size is 50 pounds or larger, use the following Environmental Hazards statement]

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do no discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary. This product is meant to help keep bacteria and algae under control in swimming pools.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not re-enter treated pools if chlorine level in water is above 4 ppm due to the potential for bodily harm.

1. Before using chlorinating tablets make sure that there is a sufficient chlorine residual (3.5-5.0 ppm) in the swimming pool by superchlorination. Next day add 1 lb. Chlorine Stabilizer (Booster) for each 4,000 gallons of water.
2. Place approximately 7 tablets for 2500 gals. of pool water either into a tablet dispenser and float it in the pool or directly into skimmer basket if one is available. Tablets must not be thrown directly into or on a vinyl liner as bleaching will result.
3. Use a good pool water test kit at least once a day to check both pH and chlorine levels. pH must be between 7.2-7.6 and adjusted as necessary. Chlorine must be between 1-2 ppm. If chlorine level is too low, add more tablets until there is enough to maintain the 1-2 ppm.

This product can be used in any dispenser that uses Chlorine Concentrate tablets or sticks. Do not mix with any other kind of chlorine as an explosion could result. NOTE: During heavy bathing loads, very hot weather, rain, etc. and at least once a week, raise chlorine residual to 3.5-5.0 ppm with granular chlorine (superchlorinated). It is preferable to do this after swimming day so that pool will have a chance to come back to the 1-2 ppm before swimmers go back in next day. Reentry into treated swimming pools is prohibited above levels of 4 ppm of chlorine.

Tablets will last approximately 5-7 days depending upon temperature and amount of water flow. Since there are approximately 48 tablets to the pound, a 2 lb. jar will last a 2,500 gal. pool 7 weeks; a 5,000 gal. pool approximately 3 1/2 weeks; and a 10,000 gal. pool a little less than 2 weeks. A 4 lb. jar will last a 2,500 gal. pool 14 weeks; a 5,000 gal. pool 7 weeks; and a 10,000 gal. pool approximately 4 weeks, etc.

STORAGE AND DISPOSAL:

Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE STORAGE: Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance.

CONTAINER HANDLING AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
