IF SWALLOWED:	<ul style="list-style-type: none"> •Call a poison control center or doctor immediately for treatment advice. •Have person sip a glass of water if able to swallow. •Do not induce vomiting unless told to do so by a poison control center or doctor. •Do not give anything by mouth to an unconscious person.
IF INHALED:	<ul style="list-style-type: none"> •Move person to fresh air. •If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. •Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR ON CLOTHING:	<ul style="list-style-type: none"> •Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor for treatment advice.
IF IN EYES:	<ul style="list-style-type: none"> •Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

DIRECTIONS USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[This product is used to control the growth of algae, including so-called "black algae", in swimming pools. For maximum effectiveness, pools containing heavy algae growth should be cleaned prior to using this product.

For pools having visible growth of algae, add an initial dose of 36 to 54 oz. per 5,000 gal. water and remove settled algae debris by cleaning (vacuuming). For treatment of freshly cleaned and filled pool, add initial dose of 21 to 36 oz. per 5,000 gal. pool water. To maintain pools free of visible algae growth, subsequent additions of 6 ¼ ozs. per 5,000 gal. (approx. 1 oz. per 740 gal.) should be used every 5-7 days after initial treatment. Uniform distribution is necessary. Pour this product all around pool and throughout the pool water for maximum effectiveness.]

[This product will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 40 to 64 fl. oz. of this product per 10,000 gals. of water. If, at the end of the swimming season pools have some visible algae growth, add 74 to 112 fl. oz. per 10,000 gals. of water. It is necessary that a uniform distribution of this product be made throughout the water and the pool for maximum effectiveness. If the pool is not covered, it may be necessary to repeat the treatment one or more times during the season.]

[This product will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 20 to 32 fluid ounces of this product per 5,000 gallons of water. If, at the end of the swimming season pools have some visible algae growth, add 37 to 57 fluid ounces per 5,000 gallons of water. It is necessary that a uniform distribution of this product be made throughout the water and the pool for maximum effectiveness. If the pool is not covered, it may be necessary to repeat the treatment one or more times during the season.]

[This product is used to control the growth of algae in spas and hot tubs. For maximum effectiveness spas and hot tubs containing heavy growth of algae should be cleaned prior to using this product.

Spas and hot tubs having just visible algae growth require an initial dose of 4 to 6 fluid ounces of this product per 500 gallons of water. For treatment of a freshly cleaned and filled spa or hot tub, add initially 2 to 4 ounces of this product per 500 gallons of water. Subsequent additions of 1 to 2 ounces of this product per 500 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.]

21/21

This product is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. This product can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep container closed and in a cool place when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

PESTICIDE DISPOSAL: Wastes resulting from the use of this pesticide may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

TO CALCULATE GALLONAGE FOR ROUND OR OVAL POOLS: Multiply diameter x diameter x average depth (all in feet) x 5.9 = gallons

FOR RECTANGULAR POOLS: Multiply length x width x average depth (all in feet) x 7.5 = gallons
