OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-757)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

3432-37

DATE OF ISSUANCE

AUG 7 1995

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

POW Super Chlorinator

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

N. Jonas & Company, Inc.
4520 Adams Circle
Bensalem, PA 19020

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Relocate the section "Corrosive: Causes irreversible eye...". underneath the heading "Hazards to Humans and Domestic Animals".
2. Include the following re-entry statement: "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine".

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

3. Revise the ingredient statement as indicated below so that it agrees with the ingredient statement on the product that your repackage:

Active Ingredient	
Sodium Dichloro-s-Triazinetrione	97%
Inert Ingredients	<u>3%</u>
	100%

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

STATEMENT OF PRACTICAL TREATMENT:

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists

IF SWALLOWED: Drink promptly large quantities of water. Avoid alcohol.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention.

CORROSIVE: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.
An easy, convenient and quick method for increasing chlorine residual in swimming pools. Contains completely soluble chlorine granules.

4

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use suitable test kit to determine exact chlorine residual. Each one ounce of "Pow" will increase the chlorine residual approximately 2.5 ppm for approximately 2,000 gal. of pool water. Swimmers should not be in pool when Super-chlorinating. Swimmers can return after chlorine residual has returned to below 2 ppm as measured by a good test kit. After super-chlorinating, add your regular swimming pool chlorine product according to package directions to maintain a minimum chlorine residual of 1.0 to 1.5 ppm at all times.

If more than 2.5 ppm is desired then increase the amount of "Pow" used, i.e. for 5 ppm, 2 oz. "Pow"/2000 gals ; 10 ppm, 4 oz. "Pow"/2000 gals. pool water, etc.

Be sure chlorine residual is below 3 ppm before swimmers are allowed in pool.

TO CALCULATE GALLONAGE

For Rectangular Pool: Multiply length of pool x width x average depth (all in feet) x 7.5

For Round Pools: Multiply diameter of pool x diameter of pool x average depth (all in feet) x 5.9

STORAGE AND DISPOSAL:

Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area. Do not reuse empty container. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
