

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT: (FIRST AID): If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible and flood with large amounts of water to dissolve all material before incinerating. Place in trash collection or dispose in approved manner.

**SUPER 90
Chlorinating
Powder** BACTERIACIDE
ALGAEICIDE

**STABILIZED CHLORINATING POWDER
COMPLETELY SOLUBLE,
NO MINERAL SCALE BUILD UP.**

ACTIVE INGREDIENT:

Trichloro-S-Triazinetrione	99%
Inert Ingredient	1%
Available Chlorine	90%

DANGER: KEEP OUT OF REACH OF CHILDREN.
See side panels for first aid and additional precautions in handling.

NET WT. 20 LBS.

ACCEPTED
APR 14 1961
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No.

EPA REG. NO. 3432-44
EPA REG. NO. 3432-PA 1

on-guard

This product is meant to help keep bacteria and algae under control in swimming pools.

DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SUPER 90 CHLORINATING POWDER should never be thrown directly into a vinyl liner pool as staining can result. Should be added through skimmer a little at a time until dissolved. Add approximately 1 oz./1,000 gal. pool water of SUPER 90 CHLORINATING POWDER. Next day add chlorine stabilizer (Booster) following package directions. **Note:** Above need be done only for new pools or when opening for season. Thereafter add at rate of 1 1/2 oz./10,000 gals. or as much as is needed to maintain a chlorine residual of 1-2 ppm as indicated by a suitable test kit. pH should be maintained at 7.2-7.6 and adjusted as necessary. During heavy bathing loads, very hot weather, rain, etc. and at least once a week, additional amounts of "SUPER 90" should be added (1 oz./1,000 gals.) so that chlorine residual increases to 3.5-5.0 ppm (superchlorination). This should be done when no swimmers are present and pool should be kept out of service until chlorine level falls back into range of 1-2 ppm.

TO CALCULATE POOL SIZE: For rectangular pools—Multiply length of pool by width by average depth (all in feet) by 7.5 = gallons. For round pools—Multiply diameter of pool by diameter of pool by average depth (all in feet) by 5.9 = gallons.
