Wendy A. McCombie Agent for N. Jones & Co. Inc Lewis & Harrison 122 C Street NW Suite 740 Washington, DC 20001

3432-44

Subject: Super 90 Chlorinating Power EPA Registration No. 3432-44 Application Date: Nov 18, 2009 Receipt Date: Nov 20, 2009

Dear Ms. McCombie:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification:

 Revision of label with Minor label changes including container handling instructions per PR-Notice 2007-4

General Comments:

Based on a review of the material submitted, the following comment applies:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Henson Acting Product Manager (32) Regulatory Management Branch II Antimicrobials Division (7510P)

HAND DELIVERED

Registration Division (Mail Code 7504P) Office of Pesticide Programs Document Processing Desk [NOTIFY] U.S. Environmental Protection Agency Room S-4900, One Potomac Yard 2777 South Crystal Drive Arlington, VA 22202

ATTENTION: Emily Mitchell Product Manager, Team 32 Antimicrobials Division

SUBJECT: N. Jonas & Company Inc. Super 90 Chlorinating Powder (EPA Reg. No. 3432-44) Notification of Minor Label Changes per PR Notices 1998-10, 2007-1, and 2007-4 This Submission Is Not Subject To PRIA Fees

Dear Ms. Mitchell:

As Agent for N. Jonas & Company Inc. ("Jonas"), I am submitting a Notification under the provisions of PR Notices 1998-10, 2007-1 and 2007-4 to advise the Agency of minor changes to the label for **Super 90 Chlorinating Powder (EPA Reg. No. 3432-44)**.

The label changes are as follows:

- 1) Replace the Environmental Hazards language, which was inadvertently omitted from the last label notification.
- 2) Update the container disposal language in the Storage and Disposal section per the instructions provided in PR Notice 2007-1 and PR Notice 2007-4. Please note that this Jonas product is sold for household/residential use only. Therefore, only the label language for household/residential containers required by these PR Notices is applicable to this product.
- 3) Move the First Aid statements to the front panel per the Agency's recent internal policy changing the current guidelines set forth in the Label Review Manual at Chapter 7, Part III, Section F(3). Previously, the Agency did "permit reasonable variations in the placement of the First Aid statement as long as the reference statement, 'See First Aid (or Statement of Practical Treatment) on [identify appropriate panel]' appears on the front panel." However, since recent comments for EPA Reg. Nos. 3432-35, 3432-36 and 3432-56 have indicated that this former policy has changed, Jonas wants to ensure that all of their Toxicity Category I chlorinated products are in compliance with the new rule.
- 4) Revise the panel reference statement to read, "See [back] [side] panel for additional precautionary statements"

Please find enclosed the following documents to support the notification for Super 90 Chlorinating Powder:

1) Pesticide Application Form; and,

2) Three (3) copies of the revised product label with the changes highlighted.

Insofar as I am the authorized "Contact Point" and "Company Agent" for Jonas, please relay all correspondence directly to me at 122 C Street NW, Suite 740, Washington DC 20001. If you have any questions, please contact me by telephone at 202-393-3903 ext. 11 or by e-mail at wmccombie@lewisharrison.com.

Thank you very much for your cooperation.

Sincerely, n. Ce

Wendy A. McCombie for, N. Jonas & Company Inc.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

(If container size is less than 5 gallons, use the following Environmental Hazards statement)
 ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms:
 (If container size is 5 gallons or larger, use the following Environmental Hazards statement)
 ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do no discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary. This product is meant to help keep bacteria and algae under control in swimming pools.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product should never be thrown directly into a vinyl liner pool as staining can result. Should be added through skimmer a little at a time until dissolved. Add approximately 1 oz/1,000 gals. pool water of this product. Next day add chlorine stabilizer (Booster) following package directions. **NOTE:** Above need be done only for new pools or when opening for season. Thereafter add at rate of 1 1/2 oz./10,000 gals. or as much as is needed to maintain a chlorine residual of 1-2 ppm as indicated by a suitable test kit. pH should be maintained at 7.2-7.6 and adjusted as necessary. During heavy bathing loads, very hot weather, rain, etc. and at least once a week, additional amounts of this product should be added (1 oz./1,000 gals.) so that chlorine residual increases to 3.5-5.0 ppm (superchlorination). This should be done when no swimmers are present and pool should be kept out of service until chlorine level falls back into range of 1-2 ppm. Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine.

STORAGE AND DISPOSAL: Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

RESTICIDE STORAGE Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container(if possible) and flood area with large amounts of water to dissolve all material before discarding this container.

CONTAINER DISPOSAL. Nonrefillable container. Do not reuse or refill this container. Other tor recycling if available. If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled. Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

TO CALCULATE GALLONAGE: For Rectangular Pools: Multiply length of pool x width x average depth (all in feet) x 7.5. = gallons. **For Round Pools:** Diameter of pool x diameter of pool x average depth (all in feet) x 5.9. = gallons.
