

P-90 Algaecide

Concentrated Granular Algaecide

For Algae control in large aquariums, ornamental fish ponds and fountains.

Active Ingredient: simazine:
2-chloro-4, 6-bis (ethylamino)-s-triazine 90%
Inert Ingredient: 10%

EPA REG. NO. 3432-53
EPA EST. NO. 3432-PA-1

CAUTION:
KEEP OUT OF REACH OF CHILDREN
See side panel for first aid and additional precautions

NET CONTS: 1 LB.

This product is to control algae in large aquariums, ornamental fish ponds and fountains.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

P-90 Algaecide effectively prevents the growth of most common forms of algae in large aquariums, ornamental fish ponds and fountains, with no harmful effects on fish or aquaria plants.

One ounce of P-90 treats 8000 gallons of water (0.8 ppm active ingredient). To determine the volume of water in gallons, multiply the average length by the average width by the average depth in feet and multiply the answer by 7.5.

Mix the correct dosage in a 3 gal. pan of clear water and distribute the mixture evenly over the water to be treated. One treatment normally lasts several weeks, depending on conditions causing algae growth. Repeat dosage when algae reappear. For heavy algae growth it may be necessary to repeat treatment within 6 days.

Precautions: 1) Shake or agitate mixture well before using. 2) This treatment may injure water hyacinths and water lilies.

NOTE: Do not treat water intended for domestic use, such as for potable water or irrigation.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS**

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing. **Practical treatment (First Aid):** For eyes: Flush with plenty of water for 15 minutes. Get medical attention if irritation persists. For skin: Wash with soap and water. Remove and wash contaminated clothing. For inhalation: Remove to fresh air, give artificial respiration if needed and get medical attention.

ENVIRONMENTAL HAZARDS:

Do not contaminate domestic, livestock or irrigation water supplies or lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste. Do not discharge treated effluent into lakes, streams, ponds or public waters.

STORAGE AND DISPOSAL: Do not contaminate water feed or feed by storage or disposal. Do not use empty container. Wrap container and put in trash collection.
