Subject: Label Amendment – Changes Required by the Inorganic Halides
Interim Registration Review Decision
Product Name: Diamond Sani Brom
EPA Registration Number: 3432-58
Received Date: August 15, 2024
Decision Number: 596114

Dear Dan Rein:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Inorganic Halides Interim Registration Review Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Erin Dandridge by phone at 202-566-0635 or via email at Dandridge.erin@epa.gov.

Sincerely,

Michael J. Varco

FIRST AID

IF SWALLOWED	-Call a poison control center or doctor immediately for treatment advice. -Have person sip a glass of water if able to swallow. -Do not induce vomiting unless told to do so by the poison control center or doctor. -Do not give anything by mouth to an unconscious person. -Call a poison control center or doctor for further treatment advice
IF ON SKIN OR CLOTHING:	-Take off contaminated clothing. -Rinse skin immediately with plenty of water for 15-20 minutes. -Call a poison control center or doctor for treatment advice.
IF IN EYES:	-Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
IF INHALED:	-Move person to fresh air. -If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. -Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of emergency call the Poison Control Center at 1-800-222-1222.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed. Avoid contact with eyes, skin or clothing. May cause eye and skin irritation. May cause respiratory tract irritation if inhaled. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix with acids or oxidizers.

This product when used in conjunction with SANI START is an effective disinfectant treatment for Spas and Hot Tubs. SANI-BROM is compatible with most chemicals normally used to treat spa and hot tub water such as sanitizers, acids, bases and algicides.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For initial treatment add 8 oz. (1 cup) of SANI-BROM for each 500 gallons of water. Immediately add 8 oz. (1 cup) for each 500 gallons of water of SANI-START to release the bromine. Check pH of water with pH of Test Kit and adjust to 7.4-7.8 when necessary. Each day, use Bromine Test Kit and check bromine reading which should be 3-5 ppm. If lower, add 4 oz. (1/2 cup) SANI-START for each 500 gallons of water. Circulate the water while adding to assure rapid and thorough mixing. After 15 minutes recheck bromine level and add additional SANI-START if still necessary. (Below 3 ppm). Check pH level every day and maintain at 7.4-7.8 in order to prevent corrosion of metal parts. Since bromine level is affected by water temperature and bather load, check often and maintain bromine level in the 3-5 ppm range. Do not use pool when residual is above this level. At the end of each day add 4 oz. (1/2 cup) of SANI-START for each 500 gallons of water before turning off pump. Once a week add 2 oz. of SANI-BROM for each 500 gallons of water.

This product is not for use in outdoor pools. Outdoor hot tubs and spas must be covered when not in use to prevent the break down of the product into bromate under sunlight. **Discharge directions for [Commercial] and [Residential] [Pool,] [Spa,] and [Hot Tub] Uses:** Before draining a treated [pool,] [spa,] or [hot tub] contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool,] [spa,] or [hot tub] contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool,] [spa,] or [hot tub] water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

STORAGE AND DISPOSAL:

Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain

To Calculate Capacity of Spa or Hot Tub: Rectangular: Multiply length x width x depth of Spa (all in feet) x 7.5 = gallons. Round: Multiply diameter x diameter x depth of Spa (all in feet) x 5.9 = gallons.
