

EFFECTIVE AGAINST GREEN, BLACK, MUSTARD ALGAE, AND ALGAL SLIME

- EXTREMELY LOW FOAMING
- NON-METALLIC

ACTIVE INGREDIENT:

Didecyl dimethyl ammonium chloride 50%
 INERT INGREDIENTS: 50%
 TOTAL 100%

EPA REG. NO 3432

EPA REG. NO. 3432-PA-1

KEEP OUT OF REACH OF CHILDREN DANGER

PRECAUTIONARY STATEMENTS HAZARDS TO HUMAN AND DOMESTIC ANIMALS

DANGER: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. If swallowed, drink promptly a large quantity of egg whites, gelatin solution, or if these are unavailable, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

CORROSIVE: Causes severe eye and skin damage. Do not get in eyes, on skin, or clothing. Remove contaminated clothing and wash before reuse. Wear goggles or face shield, and rubber gloves when handling. Wash thoroughly with soap and water after handling. Harmful or fatal if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: This Algicide is cationic. Do not mix with soap or anionic materials. Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOLS

INITIAL DOSE: Add 5 1/4 fluid ounces of product to 10,000 gallons of pool water.

MAINTENANCE DOSE: Add 1 1/4 fluid ounces of product to 10,000 gallons of pool water.

If pool has a visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added weekly. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

Maintenance dose should be added after a heavy or prolonged rainfall.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1/2 fluid ounce of product for each 1000 gallons of fresh make-up water added.

When swimming season is over, add maintenance dose prior to closing pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When this product is used as directed, it is effective against Chlorella pyrenoidosa (green algae), Phormidium luridum (black algae), Lyngbya versicolor (blue-green algae), and Pleurochloas maringensis (mustard algae), and other swimming pool algae and slime producing microorganisms.

For persistent algae or slime producing microorganisms growth, add 5-7 1/2 ounces of this product into the skimmer with the filter pump running. After one minute, shut off the pump and allow the system to remain off over night. The following day, re-start the filter pump and add 5-7 1/2 ounces of this product to the pool. Run the filter continuously for 24-48 hours, brushing the sides and bottom of the pool frequently.

STORAGE AND DISPOSAL

1. STORAGE INSTRUCTIONS: Store in original containers and place in locked storage area. Keep from freezing. Do not contaminate water, food, or feed by storage or disposal.

2. SPILL OR LEAK PROCEDURE: Small spills may be mopped up or flushed away with water or absorbed on some absorbent material and incinerated.

3. PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

4. CONTAINER DISPOSAL: Do not reuse container (bottle, cans, jars). Rinse thoroughly before discarding in trash.
