

U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 "M" St., S.W. Washington, D.C. 20460

Number:

EPA Reg.

Date of Issuance:

3432-76

JUN 4 2002

NOTICE OF PESTICIDE:

\_x Registration Reregistration

Term of Issuance:

Conditional

Name of Pesticide Product:

Scorch

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

N. Jonas & Company, Inc.

4520 Adams Circle

Bensalem, PA 19020

Note: Changes in labeling differing in substance from that accepted in commercian with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above FFA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
- 2. Make the following label changes before you release the product for shipment:
  - a. Revise the EPA Registration Number to read, "EPA Reg. No. 3432-76".
  - b. Delete the "s" on the word "Ingredients" in the Ingredient Statement.
  - c. Revise the heading "Chemical Hazards" to read: "Physical and Chemical Hazards".
  - d. Under the "Environmental Hazards" statement add "This Pesticide is toxic to fish and aquatic organisms" as the first sentence.

# SCORCH

Under the Federal Insecticide, Fungicide, and Rodenicide Act as amended, for the pesticide, registered under EPA Reg. No.

## FOR BURNING UP ORGANIC MATERIALS IN SWIMMING FOOLS

### **GRANULAR CHLORINATING POWDER**

FIRST AID							
IF ON SKIN OR	Take off contaminated clothing.						
ON CLOTHING:	•Rinse skin immediately with plenty of water for 15-20 minutes.						
	Call a poison control center or doctor for treatment advice.						
IF INHALED:	Move person to fresh air.						
	•If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.						
	Call a poison control center or doctor for further treatment advice.						
IF IN EYES:	<ul> <li>Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> </ul>						
	Call a poison control center or doctor for treatment advice.						
F SWALLOWED:	Call a poison control center or doctor immediately for treatment advice.						
	Have person sip a glass of water if able to swallow.						
	•Do not induce vomiting unless told to do so by a poison control center or doctor.						
	•Do not give anything by mouth to an unconscious person.						
Have the product container or label with you when calling a							
poison control center or doctor, or going for treatment.							
NOTE TO PHYSICIAN							
Probable mucosal damage may contraindicate the use of gastric lavage.							

EPA Est. No. 3432-PA-1	ACTIVE INGREDIENTS:	
EPA Reg. No. 3432-	Calcium Hypochlorite	68%
KEEP OUT OF REACH OF CHILDREN	OTHER INGREDIENTS:	32%
DANGER	TOTAL	100%
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONS.	*Available Chlorine	65%
NET WT.	LBS.	

Mfg. By: N. Jonas & Co., Inc. • Bensalem, PA 19020

#### PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: Danger, highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or in clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS: Danger, strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. Avoid any contact with flame or burning material, such as lighted cigarettes. Do not contaminate with moisture, garbage, dirt, organic matter, chemicals, including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid, pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oil, pine oil, dirty rags or any other foreign matter. Do not use moist or damp utensils.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or regional Office of the EPA

DIRECTIONS FOR POOL USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. A concentrated chlorine agent in dry, free-flowing form. This product controls growth of algae and effectively kills many bacteria thus helping to keep the pool in a sanitary condition. In vinyl pools, for best results, add the product as a solution (1 oz. In 2 qts. of water) to the pool water. In concrete pools scatter the granular material directly over the pool surface.

#### READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

SHOCK TREATMENT OR SUPERCHLORINATION: Every 7 days, or as necessary, superchlorinate the pool with 10 to 20 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. If algae develop, shock treat or superchlorinate the pool water by adding 1 oz. Per each 500 gallons of water. Allow 5 minutes for product to dissolve and repeat if necessary. Thoroughly clean pool by scrubbing surface of algae growth, then vacuum and cycle through filter. Pool should not be entered until chlorine residual reads 1.0-3.0 ppm.

MAINTENANCE OF pH: pH should be maintained in the 7.2-7.6 range. Use any product available for this purpose, follow directions on the label. Maintaining 1.0 ppm (parts per million) chlorine residual and a 7.2-7.6 pH range will result in clean, sparkling water.

**EMERGENCY HANDLING:** In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved land fill.

#### HOW TO DETERMINE POOL CAPACITY (IN U.S. GALLONS)

For Rectangular Pools: average depth x length x width (all in feet) x 7.5 = gallons. For Round Pools: Diameter of pool x diameter of pool x average depth (all in feet) x 5.9 = gallons.
