OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: Amended Reregistration Label
Poly 20 Algacide
EPA Registration Number: 3432-80
EPA Decision Number: 455655

Dear Ms. McCombie:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Busan 77 RED and has concluded that your submission is acceptable.

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at campbell.jacqueline@epa.gov or Terria Northern by telephone at (703) 347-0265 or by e-mail at northern.terria@epa.gov during the hours of 8:00am to 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

A handwritten signature in black ink, appearing to read "Jacqueline Campbell-Hardy".

Jacqueline Campbell-Hardy

ACTIVE INGREDIENT:
Poly[oxyethylene(dimethyliminio)ethylene
(dimethyliminio) ethylene dichloride]..... 20%
OTHER INGREDIENTS: 80%
TOTAL..... 100%

NET WT. 5 LBS.

Mfg. By: **N. Jonas & Co., Inc.** • Bensalem, PA 19020

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION. Harmful if swallowed. Harmful if absorbed through the skin. Wear chemical resistant gloves. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

(NOTE TO REVIEWER: If container size is less than 5 gallons, use the following Environmental Hazards statement)

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates and clams.]

(NOTE TO REVIEWER: If container size is 5 gallons or larger, use the following Environmental Hazards statement)

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates and clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

DIRECTIONS USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.

Poly 20 Algaecide is used to control the growth of algae in swimming pools, exterior spas, whirlpools and hot tubs. For maximum effectiveness, clean swimming pools, exterior spas, whirlpools and hot tubs containing heavy algae growth prior to using **Poly 20 Algaecide**.

For pools having just visible algae growth, add an initial dose of 37 to 56 fluid ounces of **Poly 20 Algaecide** per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 20 to 37 fluid ounces of **Poly 20 Algaecide** per 10,000 gallons of water. Make subsequent additions of 7 to 13 ounces of **Poly 20 Algaecide** per 10,000 gallons of water every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools and hot tubs having just visible algae growth require an initial dose of 4 to 6 fluid ounces of **Poly 20 Algaecide** per 1,000 gallons of water and remove settled algae debris by cleaning. For treatment of freshly cleaned and filled spas, whirlpools and hot tubs, add initially 2 to 4 fluid ounces of **Poly 20 Algaecide** per 1,000 gallons of water. Make subsequent additions of 1 to 2 ounces of **Poly 20 Algaecide** per 1,000 gallons of water every 5 to 7 days after initial treatment for maintenance.

Poly 20 Algaecide will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 20 to 32 fluid ounces of **Poly 20 Algaecide** per 10,000 gallons of water. If, at the end of the swimming season pools have some visible algae growth, add 37 to 57 fluid ounces per 10,000 gallons of water. It is necessary that a uniform distribution of **Poly 20 Algaecide** be made throughout the water and the pool for maximum effectiveness. If the pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

Poly 20 Algaecide is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. **Poly 20 Algaecide** can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix **Poly 20 Algaecide** with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL:
 Do not contaminate water, food or feed by storage or disposal.
STORAGE: Keep container closed and in a cool place when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.
PESTICIDE DISPOSAL: Wastes resulting from the use of this pesticide may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[Lot Number _____][Batch Number _____]

HOW TO DETERMINE POOL CAPACITY (IN U.S. GALLONS)
 For Rectangular Pools: average depth x length x width (all in feet) x 7.5 = gallons.
 For Round Pools: Diameter of pool x diameter of pool x average depth (all in feet) x 5.9 = gallons.
