

U.S. ENVIRONMENTAL PROTECTION  
AGENCY

Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Avenue NW  
Washington, D.C. 20460

EPA Reg.  
Number:  
**3432-84**

Date of  
Issuance:  
**MAY 30 2006**

Term of Issuance:

**Conditional**

Name of Pesticide Product:

**Ultra Shock 2**

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

N. Jonas & Company, Inc.  
4520 Adams Circle  
Bensalem, PA 19020

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Revise the "EPA Registration Number to read, "EPA Reg. No. 3432-84".

Signature of Approving Official:

Emily Mitchell  
Product Manager Team-32  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

Date:

**MAY 30 2006**

b. Align the "Ingredient Statement" to read:

Active Ingredient	
Sodium dichloro-s-triazinetriene dehydrate .....	99.0%*
Other Ingredients .....	1.0%
Total	100.0%

\*Available Chlorine 55%.

c. Place a reentry level under the "Directions for Use" for Spas to read:  
Reentry into treated spas is prohibited above levels of 3 ppm due to risk of bodily harm.

3. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

# ULTRA SHOCK 2

Active Ingredient:  
 Sodium dichloro-s-triazinetrione dihydrate..... 99.0%\*  
 Other Ingredients..... 1.0%  
 TOTAL ..... 100.0%  
 \*Available Chlorine 55%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

IF IN EYES	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor center for treatment advice.</li> </ul>
IF INHALED	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
IF SWALLOWED	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.	

See [right] [side] panel for other precautions and First Aid.

ACCEPTED  
 with COMMENTS  
 EPA Letter Dated:

MAY 30 2006

Under the Federal Insecticide,  
 Fungicide, and Rodenticide Act as  
 amended, for the pesticide,  
 registered under EPA Reg. No.

Net Wt.  
 EPA Reg. No. 3432-  
 EPA Est. No. 3432-PA-1

3432-84

Mfg. by: N. Jonas & Co., Inc.  
 Bensalem, PA 19020

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER. CORROSIVE:** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breath dust, vapor, or spray mist. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

#### PHYSICAL AND CHRMICAL HAZARDS

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

*{Environmental hazards statement for end-use products in containers of equal or greater than 50 pounds}*

#### [ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do no discharge effluent contaiting this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

#### [SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of vinyl or paint.
3. When adding this product make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from other or experiment by yourself.]

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### Swimming Pools:

Use suitable test kit to determine exact chlorine residual. Each one-ounce of this product will increase the chlorine residual approximately 2.5 ppm for approximately 2,000 gal. of pool water. Swimmers should not be in pool when super-chlorinating. Swimmers can return after chlorine residual has returned to below 2 ppm as measured by a good test kit. After super-chlorinating, add your regular swimming pool chlorine product according to package directions to maintain a minimum chlorine residual of 1.0 to 1.5 ppm at all times.

If more than 2.5 ppm is desired than increase the amount of this product used, i.e. for 5 ppm, 2 oz. this product/2000 gals.; 10 ppm, 4 oz. this product/2,000 gals. pool water, etc.

Be sure chlorine residual is below 3 ppm before swimmers are allowed in pool. [Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine]

For White Plaster Pools only, broadcast the product directly into the pool water. Pre-dissolve the recommended dose of this product for all other pools. Vinyl, Fiberglass, painted and all colored plaster pools. To pre-dissolve, add one pound of this product to 2-3 gallons of water in a clean plastic bucket. REMEMBER that the shock should be added to the water. NEVER add water to dry product. Use one pound to treat each 10,000 gallons of water. Do not mix more than one pound at a time and never add any other chemicals or products to the solution in this bucket.

#### For Control of Bacteria and Algae (Outdoors) in Spas:

1. Before bathing, test water, pH, chlorine residual and alkalinity using a suitable test kit. Adjust chlorine residual to 3.0 ppm. After bathing superchlorinate to 6.0 ppm (1 level tablespoon per 500 gallons of water). Use a chlorine stabilizer, especially outdoors, to prolong chlorine residual. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm with the addition of sodium bicarbonate or diluted muriatic acid.

2. This product does not affect pH or alkalinity of water. One tenth oz. (1/2 tsp.) per 500 gal. of water gives 1.0 ppm and 1 level tbsp. gives 6.0 ppm of chlorine. To use, broadcast granules into water with jets running. Bathing can start at once.

3. With 4 bathers in a 500 gal. spa, a 2.0 ppm chlorine residual can drop below the minimum 1.0 ppm in 15 to 20 minutes. Less water or more bathers will accelerate loss. Test often and keep chlorine residue above 1.0 ppm.

4. Weekly, superchlorinate water to 5 or 6 ppm (see 2 above). Do not bathe until chlorine drops to 3.0 ppm. Draining and cleaning of spa is recommended whenever the water becomes difficult to manage.

### TO CALCULATE GALLONAGE

For Rectangular Pool: Multiply length of pool by width of pool by average depth (all in feet) by 7.5 = gallons. For Round Pools: Multiply diameter of pool by width of pool by average depth (all in feet) by 5.9 = gallons.

### STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area. Do not reuse empty container. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

### Optional Language

[Super chlorinator for quick increase of free chlorine residual in swimming pools]

[A concentrated compound prepared to destroy and control the growth of bacteria in spa and hot tubs]

[This product is meant to yield a quick increase in free chlorine residual for oxidizing organic matter and metals such as iron in swimming pools]

[An easy, convenient and quick method for increasing chlorine residual in swimming pools.]

[Contains completely soluble chlorine granules.]
