Subject: Label Amendment – Registration Review Interim Decision Risk Mitigation
Product Name: On Guard Winter Protect Algaecide
EPA Registration Number: 3432-87
Received Date: 3/14/22
Decision Number: 582474

Dear Kresti Lyddon:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Polixetonium Chloride Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, Peter Bergquist by phone at 202-566-0648, or via email at bergquist.peter@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Erin Dandridge", with a stylized flourish at the end.

Erin Dandridge

FIRST AID	
Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.	
If in Eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water, if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with eyes, skin, or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic organisms and clams.

Before draining a treated [pool], [spa], [hot tub], or [fountain], contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated [pool], [spa], [hot tub], or [fountain], water to any location that flows to a gutter or storm drain or natural water body unless discharge is allowed by state and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Users are recommended to wear waterproof or chemical-resistant gloves when applying this product to pools. Suggested glove types include Butyl and Nitrile.

ON GUARD WINTER PROTECT ALGAECIDE is used to control the growth of algae in swimming pools, heated swimming pools, exterior spas, whirlpools and hot tubs.

SWIMMING POOLS, HEATED SWIMMING POOLS, EXTERIOR SPAS, WHIRLPOOLS AND HOT TUBS:

For maximum effectiveness of this product in pools, spas, whirlpools and hot tubs, clean those systems with heavy growth of algae prior to using this product. For pools having just visible algae growth, add an initial dose of 50 to 77 fluid ounces of ON GUARD WINTER PROTECT ALGAECIDE per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 27 to 50 fluid ounces of ON GUARD WINTER PROTECT ALGAECIDE per 10,000 gallons of water. To maintain pools free of visible algae growth, make subsequent additions of 9 to 18 fluid ounces of ON GUARD WINTER PROTECT ALGAECIDE per 10,000 gallons of water every 5 to 7 days after initial treatment. Uniform distribution of this product throughout the water in the pool is necessary for maximum effectiveness. Spas, whirlpools and hot tubs having just visible algae growth require an initial dose of 5 to 8 fluid ounces of this product per 1000 gallons of water. For treatment of a freshly cleaned spa, whirlpool and hot tub, add initially 3 to 5 fluid ounces of this product per 1000 gallons of water. Make subsequent additions of 1 to 2 fluid ounces this product every 5 to 7 days after the initial dose for maintenance.

This product will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 27 to 43 fluid ounces of algaecide per 10,000 gallons of water. If, at the end of swimming season, pools have some visible algae growth, add 50 to 77 fluid ounces per 10,000 gallons of water. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If the pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Do not ship with food, feed, drugs, or clothing.

STORAGE: Keep container closed when not in use. Keep away from children and persons unfamiliar with its use. Store away from food. In case of spills, use sawdust or sand to absorb the spilled pesticide and disposed of in a sanitary landfill. Leaking or damaged containers must be placed in a plastic bag and discarded in the trash. Mop up spills with clean water.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container $\frac{1}{4}$ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for the later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning, if appropriate, or by other procedures if approved by state and local authorities.
