Subject: Label Amendment – Minor Label Amendment to add use direction language
Product Name: Quick Shock 2
EPA Registration Number: 3432-89
Application Date: May 13, 2019
Decision Number: 552326

Dear Ms. McCombie:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 3432-89
Decision No. 552326

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Melanie Bolden by phone at (703) 347-0165, or via email at Bolden.Melanie@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Wanda G. Fuller, for". The signature is written in a cursive style.

QUICK SHOCK 2

- [A fast, economical shock]
- [Designed for all surfaces, especially vinyl]
- [Will not cloud water]
- [Kills Algae]
- [Shock]
- [Oxidizer]
- [Fast dissolving]
- [Add directly to pool]
- [UV protected]
- [Sunlight protected]
- [Clarifier]
- [Flocculent]
- [Multi-function (shock) (formula)]
- [Multi-purpose (shock) (formula)]
- [For use in all pools]
- [Stabilized (against sunlight)]
- [Enhances clarity]
- [Shock, clarifier and floc (flocculent) in one product]
- [One product to shock, clarify, oxidize]
- [Treat and swim as soon as 15 minutes*]
- [Swim in 15 minutes*]
- [Shock and swim as soon as 15 minutes*]
- [READY SET SWIM]
- [DIVE INTO FUN]

[*Refer to re-entry statement on back panel for additional guidance] (*This statement will be on the front panel (label) of each package that includes one of the above statements that contains an asterisk*)

- [pH Neutral]
- [Maintain crystal clear water] [Maintains crystal clear water]
- [Step 3 Shock]

	Step

		Shock			

ACTIVE INGREDIENTS:

Sodium Dichloroisocyanurate Dihydrate * 63.6%

OTHER INGREDIENTS 36.4%

TOTAL 100.0%

*Available chlorine 35%

KEEP OUT OF REACH OF CHILDREN

DANGER

See [back] [side] panel for additional precautionary statements

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Net Wt. _____ lbs.

Mfg. by: **N. JONAS AND CO., INC.** • P.O. Box 452 • Bensalem, PA 19020

**PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. CORROSIVE: Cause irreversible eye damage and skin burns. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust or vapor. Wear long-sleeved shirt and long pants, long-sleeved shirt and long pants, protective eyewear such as goggles, face shield, or safety glasses and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

(Note To Reviewer: If container size is less than 50 lbs., use the following Environmental Hazards statement)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

(Note To Reviewer: If container size is 50 lbs. or larger, use the following Environmental Hazards statement)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Directions For Residential Use

[Superchlorinate] [Shock treat] the pool every seven days or whenever the combined chlorine level is above 0.5 ppm (mg/L). Combined chlorine is the difference between total and free chlorine, as measured by a suitable test kit. A 1.25 lbs. bag will raise the chlorine level by 5 ppm for a 10,000 gallon pool.

Before treating the pool, it must be chemically balanced. The pH must be adjusted to 7.4-7.6. The alkalinity and calcium hardness must also be measured to insure that they are in proper range.

FOR WHITE PLASTER POOLS ONLY, broadcast this product directly into circulating pool water using one (1) 1.25 lbs. bag per 10,000 gallons of water. To prevent damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of your pool. Do not allow undissolved product to rest in contact with bleachable pool surfaces.

FOR VINYL, FIBERGLASS, PAINTED AND ALL COLORED PLASTER POOLS. Pre-dissolve the recommended dose of this product for all other pools. Use one (1) 1.25 lbs.

bag to treat each 10,000 gallons of pool water. To pre-dissolve, add up to one pound of QUICK SHOCK 2 to three (3) gallons of water in a clean bucket outdoors, stirring with a clean plastic or wooden spoon. Pour the pre-dissolved treatment dose into the water around the edges of the pool. **IMPORTANT: REMEMBER** that the shock must be added to the water. **NEVER** add water to dry product. Do not mix more than one pound per three (3) gallons of water at a time. Do not add any other chemicals or products to the solution in this bucket when pre-dissolving.

If clarity is not achieved during the initial treatment, repeat the treatment using two (2) 1.25 lbs. bags to treat each 10,000 gallons of pool water.

SPECIAL PRECAUTIONS (PLEASE READ):

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint.
3. When adding this product make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment yourself.
5. Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve material before discarding.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. **If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
