Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Adding Graphics and Marketing Claims
Product Name: Quick Shock 2
Admin Number: 3432-89
EPA Receipt Date: 04/25/2024
Action Case Number: 00609185

Dear Daniel Rein:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Aline Heffernan via email at heffernan.aline@epa.gov.

Sincerely,

Aline Heffernan, Senior Regulatory Advisor

NOTIFICATION

3432-89

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

03/06/2025

[NOTE TO EPA: The following Optional Graphics may be added to the product label:]

[Use entire bag at one application]

[A fast, economical shock]

[Designed for all surfaces, especially vinyl]

[Will not cloud water]

[Kills Algae]

[Shock]

[Oxidizer]

[Fast dissolving]

[Add directly to pool]

[UV protected]

[Sunlight protected]

[Clarifier]

[Flocculent]

[Multi-function (shock) (formula)]

[Multi-purpose (shock) (formula)]

[For use in all pools]

[Stabilized (against sunlight)]

[Enhances clarity]

[Shock, clarifier and floc (flocculent) in one product]

[One product to shock, clarify, oxidize]

[Treat and swim as soon as 15 minutes*]

[Swim in 15 minutes*]

[Shock and swim as soon as 15 minutes*]

[READY SET SWIM]

[DIVE INTO [\[MORE\]](#) FUN]

[*Refer to re-entry statement on back panel for additional guidance] (This statement will be on the front panel (label) of each package that includes one of the above statements that contains an asterisk)

[pH Neutral]

[Maintain crystal clear water] [Maintains crystal clear water]

[Step 3 Shock]

	Step			
[1	2	3	4	5]
	Shock			

ACTIVE INGREDIENTS:

Sodium Dichloroisocyanurate Dihydrate * 63.6%

OTHER INGREDIENTS 36.4%

TOTAL 100.0%

*Available chlorine 35%

KEEP OUT OF REACH OF CHILDREN

DANGER

See [back] [side] panel for additional precautionary statements

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Net Wt. _____ lbs.

Mfg. by: **N. JONAS AND CO., INC.** • P.O. Box 452 • Bensalem, PA 19020

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE: Cause irreversible eye damage and skin burns. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, or vapor, or spray mist. Wear long-sleeved shirt and long pants, long-sleeved shirt and long pants, protective eyewear (such as goggles, face shield, or safety glasses) and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

(Note To Reviewer: If container size is less than 50 lbs., use the following Environmental Hazards statement)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

(Note To Reviewer: If container size is 50 lbs. or larger, use the following Environmental Hazards statement)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Directions For Residential Use

[Superchlorinate] [Shock treat] the pool every seven days or whenever the combined chlorine level is above 0.5 ppm (mg/L). Combined chlorine is the difference between total and free chlorine, as measured by a suitable test kit. One (1) [pound][lb.] of product will raise the chlorine level by 4 ppm for a 10,000 gallon pool.

Before treating the pool, it must be chemically balanced. The pH must be adjusted to 7.4-7.6. The alkalinity and calcium hardness must also be measured to insure that they are in proper range.

FOR WHITE PLASTER POOLS ONLY, broadcast this product directly into circulating pool water using one (1) [pound][lb.] per 10,000 gallons of water. To prevent damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of your pool. Do not allow undissolved product to rest in contact with bleachable pool surfaces.

FOR VINYL, FIBERGLASS, PAINTED AND ALL COLORED PLASTER POOLS. Pre-dissolve the recommended dose of this product for all other pools. Use one (1) [pound][lb.] to treat each 10,000 gallons of pool water. To pre-dissolve, add up to one pound of QUICK SHOCK 2 to three (3) gallons of water in a clean bucket outdoors, stirring with a clean plastic or wooden spoon. Pour the pre-dissolved treatment dose into the water around the edges of the pool. IMPORTANT: REMEMBER that the shock must be added to the water. NEVER add water to dry product. Do not mix more than one (1) [pound][lb.] per three (3) gallons of water at a time. Do not add any other chemicals or products to the solution in this bucket when pre-dissolving.

If clarity is not achieved during the initial treatment, repeat the treatment using two (2) [pounds][lbs.] to treat each 10,000 gallons of pool water.

SPECIAL PRECAUTIONS (PLEASE READ):

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint.
3. When adding this product make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment yourself.
5. Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve material before discarding.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. **If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
