

READ FOLLOWING CAREFULLY BEFORE APPLICATION

USE THIS PRODUCT ONLY FOR RECOMMENDED PURPOSES AND AT RECOMMENDED DOSAGE

DIRECTIONS FOR USE

Use this product for prevention and control of dollar spot, copper spot and red thread (pink patch).

PREVENTATIVE TREATMENT: Apply 1/2 oz. of this product in 5 to 10 gals. of water per 1,000 sq. ft. of turf area every month.

CURATIVE TREATMENT: If disease is already present, apply 1/2 oz. of this product in 5 to 10 gals. of water per 1,000 sq. ft. of turf area and make second application one week later. When dollar spot is effectively controlled, revert to preventative spray schedule.

NOTE: To control brown patch and above diseases simultaneously, use a suitable brown patch fungicide between successive applications of this product.

* * *

SPRAY PREPARATION

Fill tank with 5 to 10 gals. of water for each 1,000 sq. ft. of turf to be treated. Add required amount of product and keep in suspension by agitation.

IMPORTANT — Fungicides tend to wash from grass blades during hard rains or under conditions of heavy, daily watering. Watering after application is unnecessary and should preferably be delayed for 24 hours after application. If there is evidence that product has been removed, make re-application, especially at times when diseases may be expected to be severe.

VERTAGARD

CADMIUM 60 WP TURF FUNGICIDE

FOR CONTROL OF DOLLAR SPOT • COPPER SPOT RED THREAD (PINK PATCH)

ACTIVE INGREDIENT	By Weight
Cadmium Succinate*	60%
INERT INGREDIENTS	40%
