READ FOLLOWING CAREFULLY BEFORE APPLICATION

Vertagreen is a fertilizer, broadleaf herbicide, and weed control product. It is used for the control of weeds and grasses in lawns, pastures, and other areas. It is also used as a fertilizer for lawns and pastures. It is applied as a granular material and is water-soluble. It is safe for use on most plants and animals. It is not recommended for use on lawns that are being prepared for seeding or on lawns that are being prepared for sodding. It is not recommended for use on lawns that are being prepared for sodding. It is not recommended for use on lawns that are being prepared for sodding.

DIRECTIONS FOR APPLYING WHEN TO APPLY

Apply Vertagreen to lawns, pastures, and other areas. Apply it in the early spring or late fall. Apply it to lawns that are being prepared for seeding or sodding. Apply it to lawns that are being prepared for sodding.
