FOR PROFESSIONAL TURF

This product contains a combination of a quality slow release nitrogen and a soluble phosphorus source which provides gradual release of nutrients to the turf and helps to keep the turf green and healthy throughout the growing season. It also contains a small amount of potassium to help the turf resist drought and disease.

Use only on established turf. Do not use on new lawns or on areas where the soil is poor. Do not use on areas where the soil is already rich in nutrients.

Directions for Use:

Apply to established turf before the start of the growing season. Apply at a rate of 1 lb. per 1000 sq. ft. or 100 lbs. per acre. Apply in early spring or in early fall.

1. For professional use only. Do not use on residential lawns. Do not use on areas where the soil is poor. Do not use on areas where the soil is already rich in nutrients.
