

Mr. C.D. Gunderson
LaRoche Industries, Inc.
1100 Johnson Ferry Road NE.
Atlanta, GA 30342

300/237660
17/6

Dear Mr. Gunderson:

Subject: Amendment - Label Change: New Design, Name, Analysis,
and Program
Vertagreen Lawn Food and Insecticide
EPA Registration No. 3442-813
Your Application Dated October 6, 1988

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you make the labeling change indicated below prior to release for shipment of product bearing the amended labeling.

- Update the Environmental Hazards statement by changing "cleaning of equipment or disposal of wastes" to "disposing of equipment washwaters."

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

ZONE 2 - MID-JUNE THROUGH LATE AUGUST

BAG PICTORIAL	BAG PICTORIAL	*MAP PICTORIAL	BAG PICTORIAL
Early Spring	Mid-Late Spring	Summer	Fall
Attacks and destroys the seed of unsightly crabgrass as it germinates, and provides plant nutrients necessary for first spring greening.	Controls Dandelions, Chickweeds, Plantain and other broadleaf weeds while providing a lush, green color through the spring season.	Controls Chinch Bugs, White Grubs, Sod Webworms, Mole Crickets and other lawn insects; plus fertilizer needed for a healthy lawn all summer.	Formulated for the fall to develop a strong root system, needed for added inter protection and and thicker, greener turf in the spring.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid contamination of food and feed. Do not store near food or feed products. Avoid inhalation of dust. Avoid contact with skin, eyes, and clothing. Wash thoroughly after handling. May be absorbed through skin. Keep children and pets off treated areas until this material is washed into the soil and grass is dry.

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.
- If Inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.
- If on Skin: Remove contaminated clothing and wash affected areas with soap and water.
- If in Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

LAWNS & ORNAMENTAL TURF

Controls the following lawn pests in both grass and Dichondra lawns: Ants, Armyworms, Bermudagrass Mites, Billbugs, Brown Dog Ticks, Chiggers, Chinch Bugs, Clover Mites, Crickets, Cutworms, Earwigs, Fleas, Leafhoppers, Millipedes, Sod Webworms, Sowbugs, Springtails, White Grubs of Japanese Beetle, European Chafer, and Southern Chafer.

HOW TO APPLY:

For most insects, sprinkle one pound over a 500 sq. ft. area (10' x 50'). For heavy lawns such as St. Augustine grass, spread one pound evenly over 320 sq. ft. (10' x 32'). For billbug and white grub control, spread one pound over 400 sq. ft. (10' x 40').

For best results, the lawn should be dry before application. To control surface-feeding insects, armyworms and sod webworms (lawn moths), apply in late afternoon. Water lawn lightly after application. To control ants, billbugs, chinch bugs, cutworms, and white grubs, water lawn thoroughly after application.

WHEN TO APPLY:

Apply when insects are present. To control ants, armyworms, Bermudagrass mites, chinch bugs, cutworms, leafhoppers, and sod webworms (lawn moths), apply at 4 - 6 week intervals.

To control white grubs, apply any time between July and early October. To control billbugs, apply when activity is first observed, or when chewed or brown grass indicates damage from these insects. Repeat as necessary.
