PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly after handling. Do not get in eyes or on clothing. Caused substantial but temporary eye injury. Wear goggles or safety glasses.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Vertagreen Weed and Feed 25-3-3 is a stable mixture of three phenoxy herbicides. It is for use on Lawns, Turf (not pastures) and Golf Fairways, Aprons, Tees and Roughs.

Broadleaf weeds controlled:

This product is designed for control of broadleaf weeds in lawns such as:

Black Medic, Buckhorn, Burdock, Chickory, Chickweed, Clover, Dock, Dandelion, English Daisy, Ground Ivy, Heal-All, Knotweed, Lambsquarter, Mallow, Morning Glory, Pigweed, Plantain, Poison Ivy, Poison Oak, Purslane, Ragweed, Red Clover, Red Sorrel, Stitchwort, Speedwell, Spurge, White Clover, Wild Carrot, Wild Garlic, Wild Onion, Wild Lettuce, Yarrow and other Broadleaf weeds.

Read the entire label before using this product.

This product may be used on Blue Grass, Fescue, Rye, Bermuda, Bahia, Zoysia Lawns and St. Augustine grass. DO NOT USE on Dichondra and Carpet Grass. DO NOT USE this product where desirable clovers are present or allow the product to "wind drift" on flowers, vegetables, ornamentals, shrubs, trees or other desirable plants.

#### NORTHERN GRASSES:

WHEN TO APPLY: Best results are obtained when weeds are growing rapidly in spring or early fall. IMPORTANT: Apply when grass is moist (after rain, sprinkling or dew). For most effective broadleaf weed killing action, avoid unnecessary disturbances, including watering, on treated areas for 48 hours after application. Watering will wash off weed killing material. Do not reseed for at least 3 to 4 weeks after application. Do not apply to newly seeded or sodded lawns until after 3 mowings.

#### SOUTHERN GRASSES:

WHEN TO APPLY: Best results are obtained when weeds are growing rapidly in spring. IMPORTANT: Apply when grass is moist (after rain, sprinkling or dew). DO NOT water lawn after material is applied. Watering will wash off weed killing material. For most effective broadleaf weed killing action, avoid unnecessary disturbance of treated areas for 48 hours after application. Avoid contact with valuable shrubs, plants, or flowers. Possible retreatment may be necessary if lawn is heavily overrun with weeds or if adverse low moisture conditions prevail and weeds are in a state of poor growth. Do not overapply. Under conditions of adequate moisture, high temperature and high humidity, over-application may cause minor transitory discoloration on St. Augustine.

CAUTION: It is recommended that during hot, dry conditions, application rates should be reduced 50% to avoid possible dehydration or browning of grass.

Do not reseed at least 3 to 4 weeks after application. Do not apply to newly seeded or sodded lawns until after 3 mowings.

HOW TO APPLY: This 20 pound bag should be used on 5000 square feet. Apply evenly with a lawn spreader either as a one pass application or a two pass application, criss-crossing the area at half the rate each time. Lawns that are heavily overrun by weeds and that are in poor condition may require more than one application of this product. A suggested second application should be made in approximately 30 days.

The following settings are approximate for applying contents of this package at suggested rate of 3.6 pounds per 1,000 square feet. Settings are based on an average walking speed. Reduce setting for slower speed; raise setting for higher speed. Hand spreading is not recommended.

## SUGGESTED SPREADER SETTINGS

MAKE	SETTINGS
Kmart	6 - 7
K Mart Broadcast	4 - 5
Cyclone Broadcast	5-1/2 - 5-3/4
Central	6
