**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**STATEMENT OF PRACTICAL TREATMENT**

If swallowed, induce vomiting with a mixture of soap or mustard in warm water. Call a physician immediately. If on skin, wash immediately with soap and water.

See Side Panel for additional Precautionary Statements.

EPA Reg. No. 3468-15 EPA Est. No. 3468 CO-1

Manufactured by SCHALL CHEMICAL, INC.  
Monte Vista, Colorado 81454

**GENERAL INFORMATION**

Polyram Potato Seed Treater is a fungicide formulated for the dry treatment of potato seed pieces to suppress Fusarium decay. This pesticide will not control bacterial diseases or other diseases mentioned on this label.

**DIRECTIONS FOR USE**

It is a violation of the Federal law to use this product in a manner inconsistent with its labeling. Do not use this product at a higher than recommended rate.

Potato seed, Fusarium Seed Piece Decay, Blight, Seed-borne Common Scab. Apply 1.0 lbs of Seed Treater to each 100 lbs of seed pieces. For effective control, Seed Treater must be applied to entire surface of each piece immediately after cutting. If planting is delayed, follow the recommended storage practices of cut seed pieces in your area. Potato Whole Seed, Seed-borne Common Scab. Apply 1.0 lbs of Seed Treater to each 100 lbs of seed. Seed treater should be applied evenly to entire surface of the treated whole seed. A 7 day storage period prior to planting is recommended for Blackleg and Fusarium Seed Piece Decay to be controlled.

Thoroughly clean and sanitize cutting machines, knives, knives, tables, lathes, equipment, trucks, and trailers before cutting and planting seed pieces. If seed pieces have not sprouted, subject them to temperatures of 50° to 60° F for about 10 to 15 days before handling. Treat the warmed seed pieces immediately after they are cut. The cut and treated seed pieces should be held for a week or more at cool temperature and high relative humidity, however they may be planted immediately. This holding period promotes tuberization and allows the cut surfaces to heal.

Do not use treated seed pieces for food, feed, or other purposes.

NOTE: This pesticide is toxic to fish and aquatic life. Do not apply to water.

**NOTICE — READ CAREFULLY  
LIMITED WARRANTY STATEMENT**

Schall Chemical, Inc. warrants that its product conforms to the chemical description on the label and is reasonably fit for purposes stated on the label only when used in accordance with directions and instructions specified on the label.
