DIRECTIONS

Thoroughly massage Flipo into and around the infested areas. Repeat treatment every 6 to 7 days as required. If condition is generalized, treat one-third to one-half the body 1 day and finish within the next 1 or 2 days. Long-haired dogs should be clipped, bathed, and aired before starting treatment. When treatment is discontinued, bathe animal and apply a mild dressing powder. To prevent reinfestation, observe strict sanitary conditions in the kennel, bedding, etc. Disinfect and keep all infested areas clean. **CAUTION: The treatment for demodectic mange should be limited for use by or under the direction of a veterinarian.**

CAUTION: Harmful if swallowed. Keep out of Reach of Children. Use precautions to prevent contact with the eyes. If physical condition is poor, treatment should first be applied only to a small portion of the body to determine tolerance. Wash hands thoroughly after using. DO NOT USE ON CATS OR VERY YOUNG PUPPIES.
