

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN ANY MANNER INCONSISTENT WITH ITS LABELING.

FOR USE IN CHLORINATORS, SKIMMERS OR IN A FLOATING RING ONLY. DO NOT REMOVE TABLETS OR REFILL WHEN EMPTY. IF PRODUCT IS IN SKIMMER, DO NOT ADD ANY OTHER CHEMICALS TO SKIMMER. DO NOT MIX WITH OTHER POOL CHEMICALS.

THE UTIKEM UNIVERSAL REPLACEMENT CARTRIDGE CONTROLS BACTERIA IN SWIMMING POOLS WITH PRE-MEASURED CHLORINATING TABLETS THAT ARE SELF-CONTAINED... WHICH MEANS NO HANDLING OF CHEMICALS! DISPOSABLE WHEN EMPTY.

THE UTIKEM UNIVERSAL REPLACEMENT CARTRIDGE WILL FIT: EZ CHLOR FEEDERS, GUARDEX T300 & T400 FEEDERS, TABEX AQUARIAN FEEDERS, SYLVAN SKIMMER FEEDERS, ANTHO-PURE T100 FEEDERS, GUARDEX, OTHER FLOAT RINGS AND MANY OTHER FEEDERS.

REGULAR CARE:

1. Check pH of pool water with a UTIKEM Test Kit and adjust pH to 7.2-7.6 with pH Control Chemicals.
2. Add UTIKEM CHLORINE STABILIZER AND WATER CONDITIONER or equivalent product containing Cyanuric Acid (trihydroxy-s-triazine) at the rate of 1 lb. per 5000 gallons of water if pool has not been stabilized previously.
3. For newly filled pools or pool water with no chlorine residual, add UTIKEM SHOCK TREATMENT or equivalent product following directions on the label. Check chlorine residual. If chlorine residual level is below 0.7 p.p.m., add additional UTIKEM SHOCK TREATMENT until test kit indicates at least 0.7 p.p.m. residual chlorine. The UTIKEM UNIVERSAL REPLACEMENT CARTRIDGE is designed to be used in automatic chlorinators, floating dispensers, and other types of flow-thru proportioning devices. Follow the directions of the manufacturer of this equipment to insure a constant treatment level of 1.0-1.5 p.p.m. residual chlorine as determined by a suitable test kit. Do not use pool if chlorine residual is above 2.0 p.p.m.
4. Punch out holes on the sides of the cartridge starting with holes "1" and "2" and add additional holes until satisfactory chlorine residual level is reached. The more holes that are open, the higher the chlorine residual level will be.
5. In certain pools, the cartridge may be placed in the skimmer and screwed into skimmer cover.
6. It is recommended that the pH and chlorine residual be tested daily with a UTIKEM Test Kit. Maintain pH between 7.2-7.6 and adjust when necessary.
7. When cartridge is empty, replace immediately. Do not re-use empty container.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Protect eyes, skin and face when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT, (FIRST AID): If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. Get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS:
STRONG OXIDIZING AGENT: Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Wrap container and put in trash collection.

DO NOT REUSE EMPTY CONTAINER.
