

UTIKEM

DAILY
CHLORINATING
TABLETS

Quick Dissolving
STABILIZED FOR EXTENDED CHLORINE LIFE
COMPLETELY SOLUBLE

ACTIVE INGREDIENT:	
*Trichloro-s-triazinetriene.....	67%
INERT INGREDIENTS.....	33%
	Total 100%
*Available Chlorine.....	56%

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for precautionary statements and
statement of practical treatment.

NET CONTENTS: 4 lbs. (1.814 kg)

Not Reviewed. Registrant claims to be in accordance with
Reregistration of Pesticide Product Guidance for Phase 2
Response, Page 2.12, Active to Inert Change in Status.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN SKIMMER, FLOW-THRU AND FLOATING FEEDERS.

DO NOT ADD DIRECTLY TO POOL!

One tablet (approximately 2 oz.) will provide approximately 0.84 ppm of available chlorine in 10,000 gallons of water.

START UP:

1. Adjust pH of pool water to between 7.2 and 7.6 with Utikem pH control chemicals.
2. To clean a pool which is free of visible algae, add one tablet to every 4,000 gallons of water to superchlorinate pool.
3. Test water for chlorine residual using a Utikem Test Kit.
4. If chlorine residual is below 1.0 to 1.5 ppm, repeat treatment until proper level is reached.
5. If your pool has not been stabilized previously, add Utikem Chlorine Stabilizer & Water Conditioner (cyanuric acid) according to directions.

REGULAR CARE:

1. After start-up, add 1 tablet (approximately 2 oz.) for every 8,000 gallons of pool water. Place tablets in skimmer or dispenser until dissolved.
2. Add 2 tablets for each 8,000 gallons of water daily or as needed to maintain a chlorine residual of 1.0 to 1.5 ppm as determined by your test kit.
3. Check pool water daily with your Utikem Test Kit and maintain a chlorine residual of 1.0 to 1.5 ppm.
4. During extremely hot weather and/or heavy bather loads, additional treatment may be required.

NEVER PUT TABLETS DIRECTLY INTO POOL WATER! ADD TABLETS TO SKIMMER, DISSOLVING BASKET OR SUITABLE FEEDER!

NEVER MIX POOL CHEMICALS TOGETHER! ALWAYS ADD THEM SEPARATELY!

USEFUL POOL FACTS-ESTIMATING POOL CAPACITY

RECTANGULAR & SQUARE POOLS: Multiply length x width x average depth* x 7.5 = Pool Gallonage.

ROUND POOLS: Multiply diameter x diameter x average depth* x 5.9 = Pool Gallonage.

OVAL POOLS: Multiply longest diameter x shortest diameter x average depth* x 6.7 = Pool Gallonage.

* Calculate pool dimensions in feet.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: If swallowed, promptly drink large quantities of water. DO NOT induce vomiting. Call a Physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, flush with water for at least 15 minutes. Get immediate medical attention. If inhaled, remove person to fresh air. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container (if possible) in open air or well ventilated area. Flood with large volumes of water to dissolve all materials before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, isolate container (if possible) and flood with large volumes of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
