UTILITY CHEMICAL COMPANY

Utikem[®] C.P.C. STABILIZED Chlorine powder SUPER CONCENTRATE

**DESTROYS AND CONTROLS
BACTERIA AND ALGAE IN SWIMMING POOLS**

**COMPLETELY SOLUBLE SWIMMING
POOL WATER SANITIZER AND DISINFECTANT**

Active Ingredient:
Sodium dichloro-s-triglycinate 100.0%
Available Chlorine 60% Minimum
P.A. Reg. No. 3525-41 Net Wt. 5 lbs.

DANGER: KEEP OUT OF REACH OF CHILDREN
(SEE ANTIDOTE STATEMENT AND OTHER PRECAUTIONS ON SIDE PANEL)

DIRECTIONS:

1. Stabilize pool with Chlorine Stabilizer by adding one pound for each 5000 gallons of water. This stabilizes and prolongs swimming pool chlorine residual, cuts down on chlorine loss due to sunlight, heat, etc., and saves you money.
2. The filter system should be backwashed or properly cleaned and the pool water pH adjusted between 7.4 or 7.8. Use 12 ounces of Super-Concentrate per 5000 gallons of water as an initial treatment. Repeat as required to establish a residual of 1.0 to 2.0 ppm of available Chlorine as determined by test kit. The regular use of a test kit will aid in determining when it is necessary to add more chlorine to maintain a residual of 1.0 to 2.0 ppm of available chlorine. Use approximately one ounce per 5000 gallons daily. Check chlorine residual with test kit before entering pool. If chlorine residual is above 2.0 ppm, allow pool to stand until chlorine residual drops to 2.0 ppm.

DANGER: Keep Out of Reach of Children. Corrosive strong oxidizing material. Causes severe eye and skin damage. Do not get in eyes on skin or on clothing. Protect eyes when handling product. Avoid breathing dust. Harmful or fatal if swallowed.

Do not reuse empty container

(INSTRUCTIONS ON SIDE PANEL)

DIRECTIONS:

1. Stabilize pool with Chlorine Stabilizer by adding one pound for each 5000 gallons of water. This stabilizes and prolongs swimming pool chlorine residual, cuts down on chlorine loss due to sunlight, heat, etc., and saves you money.
2. The filter system should be backwashed or properly cleaned and the pool water pH adjusted between 7.4 or 7.8. Use 12 ounces of Super-Chlorine concentrate per 5000 gallons of water as an initial treatment. Repeat as required to establish a residual of 1.0 to 2.0 ppm of available Chlorine as determined by test kit. The regular use of a test kit will aid in determining when it is necessary to add more chlorine to maintain a residual of 1.0 to 2.0 ppm of available chlorine. Use approximately one ounce per 5000 gallons daily. Check chlorine residual with test kit before entering pool. If chlorine residual is above 2.0 ppm, allow pool to stand until chlorine residual drops to 2.0 ppm.

DANGER: Keep Out of Reach of Children. Corrosive strong oxidizing material. Causes severe eye and skin damage. Do not get in eyes or on skin or on clothing. Protect eyes when handling product. Avoid breathing dust. Harmful or fatal if swallowed.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

CONTACT WITH ORGANIC MATTER MAY CAUSE FIRE. MOISTURE CONTAMINATION MAY LIBERATE IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. KEEP AWAY FROM OPEN FLAMES. KEEP CONTAINER CLOSED AND IN A COOL DRY PLACE WHEN NOT IN USE. RINSE CONTAINER THOROUGHLY WHEN DISCARDING.

NEVER MIX POOL CHEMICALS TOGETHER. ALWAYS ADD THEM TO POOL SEPARATELY.

Do not reuse empty container.
