

Net Weight: 24 oz. (1 lb. 8 oz.)

Utikem super-shock

- For super chlorination of pools
- Rapid control of algae
- Provides instant chlorination for pools at beginning of season
- Completely soluble - no calcium residue

Active Ingredient:
Sodium dichloro-s-triazinetriene
Available Chlorine Content 60% Minimum

DANGER: KEEP OUT OF REACH OF CHILDREN
(See antitake statement and other precautions on the back panel)

ACCEPTED
Sept 7, 1973
UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO. 3525-56

EPA Reg.
No. 3525-56

ALGAE CONTROL

Designed for the quick and easy control of green stony water due to algae growth. Simply add these instantly soluble granules to your pool and the algae will begin to be destroyed. UTIKEM SUPER-SHOCK TREATMENT dissolves quickly with no cloudiness or residue. The instant action of UTIKEM SUPER-SHOCK TREATMENT will remedy unsightly algae conditions without the addition of any other chemicals. Just add directly to the pool. Dead algae will drop to the bottom of the pool and the unsightly green color of the water will disappear!

SUPER CHLORINATION

UTIKEM SUPER-SHOCK TREATMENT provides an easy instant method for super chlorination. High chlorine residual can be obtained with the addition of UTIKEM SUPER-SHOCK TREATMENT granules to your pool. This calcium-free product gives fast chlorination without cloudiness. Specially recommended for use in starting up a pool at the beginning of the season when super chlorination is required.

DIRECTIONS

For 24 ft. diameter (24' diam x 48" high) pools of approximately 13,500 gallon capacity, add entire contents of this container. For other pools add 2 oz. by weight for each 1,000 gallons of pool water.

Allow several hours for SUPER-SHOCK TREATMENT to destroy the algae, preferably overnight. Vacuum or brush the dead algae from the pool bottom, if possible.

Before using the pool again check the chlorine residual. If chlorine residual is above 2.0 ppm the pool should remain unused until the chlorine residual drops to below 2.0 ppm as determined by a suitable chlorine test kit.

DANGER: Keep Out of Reach of Children. Corrosive strong oxidizing material. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes when handling product. Avoid breathing dust. Harmful or fatal if swallowed.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

CONTACT WITH ORGANIC MATTER MAY CAUSE FIRE. MOISTURE CONTAMINATION MAY LIBERATE IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. KEEP AWAY FROM OPEN FLAMES. KEEP CONTAINER CLOSED AND IN A COOL DRY PLACE WHEN NOT IN USE. RINSE CONTAINER THOROUGHLY WHEN DISCARDING.

UTILITY CHEMICAL COMPANY, Paterson, New Jersey 07524

NEVER MIX POOL CHEMICALS TOGETHER. ALWAYS ADD THEM TO POOL SEPARATELY. DO NOT REUSE EMPTY CONTAINER. DESTROY WHEN EMPTY.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
