is a disinfectant bathroom bowl cleaner designed for hospital use. This disinfectant toilet bowl cleaner is especially formulated to kill many germs commonly found in hospital, industrial, and household environments. MYTEE is designed for use in toilet bowls and urinals.

MYTEE contains an acid compatible detergent system that removes resistant stains and increases its disinfectant action.

When used as directed, MYTEE cleans, disinfects, and deodorizes in one easy step.

DANGER:

Corrosive. Keep Out of Reach of Children. May be fatal or harmful if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin or on clothing.

FIRST AID

If swallowed, call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites.

Eye contact: Wash with water for 15 minutes. Get prompt medical attention.

gently immediately flood the surface with water, using soap freely, then cover with mosit magnesia or baking soda.

Rinse empty container with water before discarding it.

USE-DIRECTIONS

Flush toilet. Add 1 fluid oz. (2 tablespoons) directly to water in toilet bowl (¾ gallon). Brush to cover all bowl surfaces including under the rim. Flush toilet.

For badily stained bowls, repeat above treatment using 2 to 4 fluid ounces of MYTEE.

For use in urinals, add 1 fluid oz. (2 tablespoons) to 34 gallon of water. Apply by brush to all urinal surfaces. Flush.

At 1 fluid oz./¾ gallon water, MYTEE is effective against Pseudomonas aeruginosa, Salmonella choleraesuis and Staphylococcus aureus (in toilet bowls and urinals). This performance has been confirmed by the AOAC Use-Dilution Test Procedure.

The cationic detergent system of MYTEE inhibits the acid corrosion of metal parts found around toilet bowls and urinals.
