

71A-NEM
 CHLORINATING POWDER
 Concentrate
 STABILIZED FOR EXTENDED CHLORINE LIFE
 COMPLETELY SOLUBLE

ACTIVE INGREDIENT:

*Sodium dichloro-s-triazinetriene.....	77
INERT INGREDIENT:.....	23
	<hr/>
	100

*Available Chlorine 31.5

E.P.A. Reg. No. 312-xx

E.P.A. Est. No. 3507-NJ-1

KEEP OUT OF REACH OF CHILDREN
 DANGER
 SEE STATEMENT OF PRACTICAL TREATMENT
 AND ADDITIONAL PRECAUTIONS ON REAR PANEL.

NET WT. 16oz/454g
 ITEM NO. SOL-11-10

35725-84

TESTING INSTRUCTIONS:

IT IS A VIOLATION OF THE FEDERAL FOOD, DRUG AND COSMETIC ACT TO ADVERTISE OR PROMOTE ANY PRODUCT WHICH DOES NOT COMPLY WITH THE ABOVE INFORMATION.

1 OUNCE WILL PROVIDE APPROXIMATELY 1 P.P.M. OF AVAILABLE CHLORINE IN 500 GALLONS OF WATER.

REGULAR CARE:

1. Before bathing, test water pH and chlorine residual using your SPA-KEM TEST KIT. As necessary, adjust pH of water to 7.2-7.6 range with SPA-KEM pH Control Chemicals.
2. Adjust chlorine residual to 3 p.p.m. by the addition of 3/4 oz. of SPA-KEM CHLORINATING POWDER CONCENTRATE for every 500 gallons of water. Treatment should be broadcast into the water with filter jets running.
3. Test chlorine residual often and maintain above 1 p.p.m. With 4 bathers in a 500 gallon spa or hot tub, a 2 p.p.m. chlorine residual can drop below the minimum 1 p.p.m. in 15 to 20 minutes. 1/4 oz. of SPA-KEM CHLORINATING POWDER CONCENTRATE for every 500 gallons of water will yield 1 p.p.m. chlorine residual.
4. After bathing, and on a weekly basis, superchlorinate to 6 p.p.m. chlorine residual by the addition of 1 1/2 oz. for every 500 gallons of water. Do not bathe until chlorine residual drops to 3 p.p.m.

ADD SPA-KEM CHLORINATING POWDER CONCENTRATE DIRECTLY TO SPA OR HOT TUB. NEVER MIX SPA OR HOT TUB CHEMICALS TOGETHER! ALWAYS ADD THEM SEPARATELY.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT, (FIRST AID): If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes, get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS:

STRONG OXIDIZING AGENT! Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

Keep product dry in tightly closed container when not in use. Store in original container in a cool, dry, well-ventilated area away from heat sources, sparks, open flames and lit matches or pipes. Do not contaminate water, food or feed by storage or disposal. In case of spill or leak, use extreme caution. Dilution may cause fire or violent reaction. If fire or reaction occurs, drench with plenty of water. (NOTE: SPA-KEM CHELATING POWER CONCENTRATE will supply oxygen; therefore, attempts to smother fire with a wet blanket, carbon dioxide or a dry chemical extinguisher are ineffective.) Sweep up spilled material with a clean, dry broom and brush. Deposit material into a clean, dry container and dissolve in large amount of water before discarding on site or at an approved local disposal facility. Rinse spill area with plenty of water. Do not reuse empty container. Residual material remaining in empty container can react to cause fire. Thoroughly flush empty container with water, securely wrap in several layers of newspaper and discard in trash.

DO NOT RE-USE EMPTY CONTAINER
