COPY

Subject:

Clor-Kare Chlorinating Granules

EPA Registration Number: 3525-88 Application Dated: August 26, 2009 Receipt Dated: September 1, 2009

Dear Ms. Schaub:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA Section 3(c) 9.

Proposed Notification:

Updating Storage and Disposal per PR Notice 2007-4

General Comment:

Based on a review of the material submitted, the following comment applies:

This notification is accepted and a copy has been inserted in your file for future reference.

Should you have any questions concerning this letter, please contact Wanda Henson at (703) 308-6345.

Sincerely,

Wanda Henson

Klor-Kare Chlorinating Granules

Dear Ms. Mitchell:

This is a follow-up to the submission dated October 10, 2008 to update the storage and disposal as per PR Notic 2007-4. I have enclosed a copy of the submission for your records.

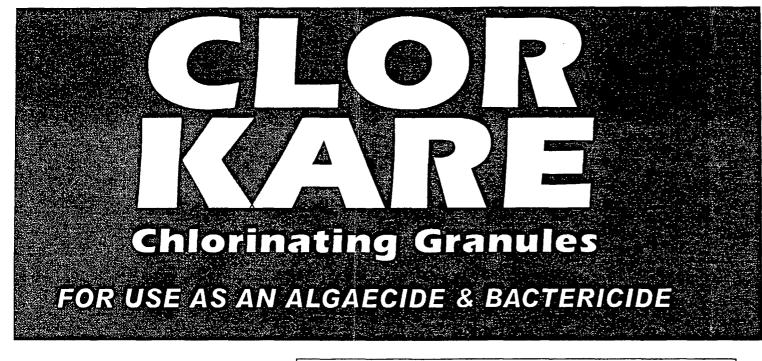

If you have any questions or need additional information, please let me know.

Sincerely,

Debbie Schaub

DANGER

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 516-735-2225 for further questions.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Clor Kare Chlorinating Granules is a concentrated chlorinating agent in a dry, free-flowing form. Clor Kare Chlorinating Granules controls the growth of algae and effectively kills many bacteria, thereby helping to keep the pool in sanitary condition. Use only a clean, dry scoop to handle Clor Kare Chlorinating Granules.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ PRECAUTIONARY STATEMENTS BEFORE USE!

INITIAL CHLORINATION: For new pools, spring start-up or superchlorination, add 2 oz. of Klor Kare Chlorinating Granules per 1,000 gallons of pool water to yield 5 to 10 ppm (parts per million) available chlorine. After 1 hour, check the chlorine residual using a pool water test kit. If below 1.0 ppm, repeat dosage until 1-3 ppm is obtained. For best results, prepare a solution by predissolving 1 oz. of granules in a clean, plastic bucket filled with 1/2 gallon of water or sprinkle granules over an extensive area of pool water surface. Do not enter pool until the chlorine residual is between 1.0 to 3.0 ppm.

ROUTINE CHLORINATION: Add 2½ oz. of Clor Kare Chlorinating Granules per 10,000 gallons of pool water by sprinkling the granules over a wide area of pool water surface to yield an available chlorine residual of 0.6 to 1.0 ppm by weight. Stabilized pools should maintain a chlorine residual of 1.0 to 1.5 ppm. Using a pool water test kit as a guide, maintain the pH of the pool water at 7.2 to 7.6. If the pH is below 7.2, add pH Plus in accordance with label directions. If the pH is higher than 7.6, lower the pH with the addition of pH Minus following label directions. The frequency of water treatment will depend on temperature, bather load and amount of water flow.

SUPERCHLORINATION: Once a week, or if algae is present, superchlorinate the pool water by adding 2 oz. Clor Kare Chlorinating Granules per 1,000 gallons of pool water. Thoroughly clean pool by scrubbing surface of algae growth. Then vacuum and cycle through filter. Do not enter pool until the chlorine residual returns to 1-3 ppm.

WINTERIZING: While water is still clean and clear, add 0.7 oz. of Clor Kare Chlorinating Granules per 1,000 gallons of pool water, while filter is running. Cover and close appool in accordance with manufacturer's instructions.

HOW TO DETERMINE POOL CAPACITY (IN U.S. GALLONS)

RECTANGULAR OR SQUARE POOLS: Multiply length x width x average depth* x 7.5 = Gallons

CIRCULAR POOLS: Multiply diameter x diameter x average depth* x 5.9 = Gallons OVAL POOLS: Multiply length x width x average depth* x 6.6 = Gallons All'dimensions are calculated in feet.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses, and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, chlorine gas, and possible fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water, if necessary.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

DON NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE 3 DISPOSAL. STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame. NON-REFILLABLE CONTAINER. IF EMPTY: Do not reuse or refill this container. Place in trash or offer for recycling, if available. IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
