ACTIVE INGREDIENTS:
 Copper as Elemental* 2.57%
INERT INGREDIENTS: 97.43%
 TOTAL * 100.00%

*From Copper Sulfate Pentahydrate.

Net Contents: 1 gal. (128 fl. oz.)

| KEEP OUT OF REACH OF CHILDREN DANGER | |
|---|--|
| FIRST AID STATEMENT | |
| IF SWALLOWED: | Call a poison control or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. |
| IF IN EYES: | Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. |
| IF ON SKIN OR CLOTHING: | Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. |
| IF INHALED: | Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. |
| HOT LINE NUMBER: | Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions. |
| NOTE TO PHYSICIAN: | Probable mucosal damage may contraindicate the use of gastric lavage. |

Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 3525-95

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INITIAL TREATMENT: Permicide Liquid Permanent Algaecide* must be added to pool water free of visible algae. To insure this condition, superchlorinate pool water. Then add Permicide Liquid Permanent Algaecide to pool water as indicated in the dosage table below after allowing the chlorine residual to fall to 2.0 ppm. Do not enter the pool until the chlorine residual falls to 2.0 ppm.

**PERMACIDE PERMANENT ALGAECIDE DOSAGE CHART
(For Initial Treatment Upon Filling Pool)**

| POOL GALLONAGE | INITIAL AMOUNT |
|----------------|----------------|
| 675 gallons | 1 cupful |
| 2,700 gallons | 1 quart |
| 5,400 gallons | 1/2 gallon |
| 10,800 gallons | 1 gallon |

Using the dosage recommended above, apply the proper amount by directly adding to the pool as you walk around the outside edge.

*Permanency is approximately 1 month depending on weather conditions and bather load.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out Of Reach Of Children. Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Harmful if swallowed. May cause skin sensitization in certain individuals. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
