

U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Antimicrobials Division (7510W)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:

3525-96

Date of Issuance:

MAY 14 1998

Term of Issuance:

Name of Pesticide Product:

Jolt Pool Shock Treatment

**NOTICE OF PESTICIDE:**  
Registration  
X Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Qualco, Inc.  
225 Passaic Street  
Passaic, NJ 07055

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. The Child Resistant Packaging is Required.
2. Include the word "Poison" and the skull and crossbones symbol immediately below the signal word "DANGER" on the front panel of the label.

4. Signature of Approving Official

Robert S. Brennis, PM 32

Date:

3. Revise the "Precautionary Statement" to read:

Fatal if inhaled. Corrosive. Causes irreversible eye damage or skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield. For handling activities, use dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C). Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

5. Under the "Statement of Practical Treatment" revise the "If Swallowed" to read:

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

6. The proposed label should contain a "Note to Physicians". Some suggested types of information include the following:

- technical information on symptomatology;
- use of supportive treatments to maintain life functions;
- medicine that will counteract the specific physiological effects of the pesticide;
- company telephone number to specific medical personnel who can provide specialized medical advice.

Probable mucosal damage may contraindicate the use of gastric lavage.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

Robert S. Brennis  
Product Manager 32  
Regulatory Management Branch II  
Antimicrobials Division (7504C)

# JOLT!

## POOL SHOCK TREATMENT FOR CONTROL OF ALGAE

ACTIVE INGREDIENT:  
 Lithium Hypochlorite .....29.0%  
 INERT INGREDIENTS.....71.0%  
 TOTAL 100.0%  
 Equivalent to 33.8% Available Chlorine by Weight

KEEP OUT OF REACH OF CHILDREN  
**DANGER**

**STATEMENT OF PRACTICAL TREATMENT (FIRST AID)**  
 IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.  
 IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.  
 IF ON SKIN: Wash with plenty of soap and water. Get medical attention.  
 IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.  
 See back panel for additional precautions.

**MADE ESPECIALLY FOR POOL SPECIALISTS**

Net Weight: 2 lbs. (32 oz.) (907.2 grams) with COMMENTS in EPA Letter Dated:

MAY 14 1998  
 Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 3525-96

**CHEMICAL PROPERTIES**

Jolt Pool Shock Treatment is designed for easy control of algae growth which causes pool water to look green and feel slimy. Simply add these instantly soluble granules to your pool and the algae will begin to be destroyed.  
 Jolt Pool Shock Treatment dissolves quickly with no cloudiness. The instant action of Jolt Pool Shock Treatment will remedy unsightly algae conditions, without the addition of any other chemicals. Just add directly to pool water. Dead algae will drop to the bottom of the pool and the unsightly, green color of the water will disappear.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.  
 To control algae and reduce organic contamination in pool water, add 2-1/4 to 4-1/2 ounces of Jolt Pool Shock Treatment per 1,000 gallons of pool water to yield 5 to 10 ppm available chlorine for superchlorination. Add Jolt Pool Shock Treatment to the pool by broadcasting (sprinkling) it over a wide area of pool water surface, or by pre-dissolving the product in a clean, plastic pail FILLED with water and then broadcasting the solution into pool water.  
**IMPORTANT:** Add Jolt Pool Shock Treatment at night or when the pool is not in use. Do not enter the pool until the chlorine residual is below 2.0 ppm.  
 Use Jolt Pool Shock Treatment weekly during heavy periods of use or when water temperature is above 80°F. Add once every two weeks in residential pools receiving normal usage. Between treatments, use Pool Trol sanitizers and pool chemicals as necessary to maintain the proper water balance.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before, eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

**PHYSICAL AND CHEMICAL HAZARDS**

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL :**

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.  
**CONTAINER DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding this container. Do not reuse empty container, but place in trash collection.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.
