

3525-107

ISO CLOR II SUPER STABILIZED CHLORINATING GRANULES

bactericide • algaecide • disinfectant

ACCEPTED
AUG - 8, 2003
Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 3525-107

8/8/2003

ACTIVE INGREDIENT:
Sodium Dichloro-s-triazinetrione
Dihydrate.....99.3%
OTHER INGREDIENTS.....0.7%
TOTAL 100.0%
Available Chlorine.....56.0%

KEEP OUT OF REACH OF CHILDREN DANGER	
FIRST AID STATEMENT	
IF SWALLOWED:	Call a poison control or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
HOT LINE NUMBER:	Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions.
NOTE TO PHYSICIAN:	Probable mucosal damage may contraindicate the use of gastric lavage.

MADE ESPECIALLY FOR POOL SPECIALISTS

Net Weight: 25 lbs. (11.34 kg)

1/2

CHEMICAL PROPERTIES
Contains 56% Available Chlorine
Contains 50.4% 2,4,6 Trihydroxy-s-triazinetrione
Easily Soluble In All Pool Water / No Cloudy Buildup
Long Lasting Chlorine Residual
Keeps Water Sparkling Clear
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.

For treatment of freshly filled pools or for superchlorination of water free of visible algae, add 2 oz. of Iso Clor II Super Stabilized Chlorinating Granules per 1,000 gallons of pool water by sprinkling it over a wide area of pool water surface. This dosage will provide about 8.75 ppm (parts per million) of chlorine to help satisfy the water's chlorine demand. After this treatment, bathers should not be allowed to enter the pool until the chlorine residual falls to 2 ppm (parts per million) or less. For subsequent use, add 1-1/4 oz. to 2-1/2 oz. of Iso Clor II Super Stabilized Chlorinating Granules per 10,000 gallons of pool water or as needed to maintain a chlorine residual of 1.0 to 1.5 ppm. Check water for chlorine content at regular intervals with a pool water test kit. During extreme heat or with heavy bather loads, water should be checked every 2 hours. Maintain a pH level of 7.2 to 7.6 for best results. Always distribute granules over an extensive area of pool water surface.

For use in wader or splasher pools, the recommended daily dosage is at the rate of 1/2 ounce per 750 gallons of water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
