Subject: Tarry 7-Day Stabilized Chlorinating Big Tabs
EPA Registration No. 3525-108
Application Date: May 21, 2004
Receipt Date: May 28, 2004

Dear Ms. Schaub:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification

- update to Storage and Disposal Statements in accordance with 2001-6

General Comments

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Mitchell

Coastal

Once-A-Week TARRY 7-DAY STABILIZED CHLORINATING BIG TABS

ACTIVE INGREDIENT:
 Trichloro-s-triazinetrione 99.3%
 OTHER INGREDIENTS..... 0.7%
 TOTAL 100.0%
 Available Chlorine.....89%

KEEP OUT OF REACH OF CHILDREN

FIRST AID STATEMENT

IF SWALLOWED:	Call a poison control or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
HOT LINE NUMBER:	Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions.
NOTE TO PHYSICIAN:	Probable mucosal damage may contraindicate the use of gastric lavage.

Net Weight: 8 lbs. (3.63 kg)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before, eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

CHEMICAL PROPERTIES

**Contains 89% Available Chlorine / Soluble in all Pool Water
No Alkali Build-up / Long-Lasting Chlorine Residual
Slow Dissolving / For use in Automatic or Floating Dispensers**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.

Tarry 7-Day Stabilized Chlorinating Big Tabs are to be used as a disinfectant and algae control in pool water. They are long-lasting and are intended to slowly meter chlorine into pool water. Tarry 7-Day Stabilized Chlorinating Big Tabs are intended for use in a tablet dispenser, in-line chlorinator, in-line feeder or other similar dispenser. In order to receive its maximum effect, use as follows:

1. Superchlorinate the pool water with fast acting Coastal Blast Shock Treatment or other chlorinating product, following label directions for that product. Do not enter pool until the chlorine residual drops to 2.0 ppm (parts per million).
2. Using Coastal Chlorine Stabilizer, adjust the cyanuric acid level in pool water to 35 ppm, following label directions.
3. Adjust the pH to the ideal range of 7.2 to 7.6 using Coastal pH Plus if the pH is below 7.2 or Coastal pH Minus if the pH is above 7.6.
4. Suggested dosage is one (1) Tarry 7-Day Stabilized Chlorinating Big Tab per 7,500 gallons of pool water per week. Add tablet to a floating dispenser, in-line feeder or similar as needed as determined by a chlorine test kit to maintain a 1.0 to 1.5 ppm (parts per million) residual chlorine. Check water for chlorine content at regular intervals. This dosage may vary due to unusual conditions, such as heavy bather loads, heavy rains or high temperatures. During these conditions, water should be checked every 2 hours. Maintain a pH level of 7.2 to 7.6 for best results.

One (1) Tarry 7-Day Stabilized Chlorinating Big Tab weighs approximately 5-1/3 oz. (150 grams) and **WILL LAST APPROXIMATELY ONE WEEK DEPENDING ON TEMPERATURE, BATHER LOAD AND AMOUNT OF WATER FLOW.** Tablets should never be thrown directly into pool as they may cause spotting or bleaching. Not recommended for splashers or wader pools.

Tarry 7-Day Stabilized Chlorinating Big Tabs/Sticks

Dear Mr. Brennis:

This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40-CFR 152.46, this product may be in violation of FIFRA, and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Sincerely,

Debbie Schaub
