

ACCEPTED

APR 24 2002

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg No 3525-110

ACTIVE INGREDIENT:
 Calcium Hypochlorite 68.0%

OTHER INGREDIENTS 32.0%

TOTAL 100.0%

Minimum Available Chlorine.....65.0%

Net Weight: 12.5 lbs. (5.67 kg)

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID STATEMENT

IF SWALLOWED:	Call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
HOT LINE NUMBER:	Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions.
NOTE TO PHYSICIAN:	Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Keep Out Of Reach Of Children. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses, and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Coastal Guardian Chlorinating Granules is a concentrated chlorinating agent in a dry, free-flowing form. Guardian Chlorinating Granules control the growth of algae and effectively kills many bacteria, thereby helping to keep the pool in sanitary condition. Use only a clean, dry scoop to handle Guardian Chlorinating Granules.

READ PRECAUTIONARY STATEMENTS BEFORE USE!

INITIAL CHLORINATION: For new pools, spring start-up or superchlorination, add 1 to 2 oz. of Guardian Chlorinating Granules per 1,000 gallons of pool water to yield 5 to 10 ppm (parts per million) available chlorine. After 2 hours, use a Poolchem test kit to determine the chlorine residual. If below 1.0 ppm, repeat dosage until 5 to 10 ppm is obtained. For best results, prepare a solution (1 oz. of granules per 1/2 gallon of water) or scatter granules over a wide area of pool water surface. Do not enter pool until the chlorine residual drops below 2.0 ppm.

ROUTINE CHLORINATION: Add 2 oz. of Guardian Chlorinating Granules per 10,000 gallons of pool water by sprinkling the granules over a wide area of pool water surface to yield an available chlorine residual of 0.6 to 1.0 ppm by weight. Stabilized pools should maintain a chlorine residual of 1.0 to 1.5 ppm. Using a Poolchem test kit as a guide, maintain the pH of the pool water at 7.2 to 7.6. If the pH is below 7.2, add Coastal pH Plus in accordance with label directions. If the pH is above 7.6, add Coastal pH Minus in accordance with label directions. Frequency of water treatment will depend on temperature, bather load and amount of water flow.

SUPERCHLORINATION: Once a week, or if algae is present, superchlorinate the pool water by adding 1 to 2 oz. Guardian Chlorinating Granules per 1,000 gallons of pool water. Thoroughly clean pool by scrubbing surface of algae growth. Then vacuum and cycle through filter. Pool should not be entered until chlorine residual is below 2.0 ppm.

WINTERIZING: While water is still clean and clear, add 0.6 oz. of Guardian Chlorinating Granules per 1,000 gallons of pool water, while filter is running. Cover and close pool in accordance with manufacturer's instructions.

TO DETERMINE POOL CAPACITY (IN U.S. GALLONS)

RECTANGULAR OR SQUARE POOLS: Multiply length x width x average depth* x 7.5 = Gallons

CIRCULAR POOLS: Multiply diameter x diameter x average depth* x 5.9 = Gallons

OVAL POOLS: Multiply length x width x average depth* x 6.6 = Gallons

*Calculate pool dimensions in feet.
