

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO. 3525-116	DATE OF ISSUANCE JUN 30 1995
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Stabilized Chlorinating Granules for SPAS	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code) <div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;"> <p>Qualco, Inc. 225 Passaic Street Passaic, NJ 07055</p> </div>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> 1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 26 products. 2. Revise the Environmental Hazards to read as follows: " This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. <p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p>		
SIGNATURE OF APPROVING OFFICIAL		DATE

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA[®].

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Registration Division (7505C)

Enclosure

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm. Recommended for spas and hot tubs operating at temperatures between 90° F-105° F.

START-UP: When starting up a reopened, freshly filled spa or hot tub, make sure the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2 to 7.8 using Coastal pH Minus or pH Plus as indicated by a chemical test kit for Spas and Hot Tubs. Adjust and maintain total alkalinity at 80-100 ppm, based on the label directions for Coastal Total Alkalinity Powder and pH Minus for Spas & Hot Tubs. Superchlorinate by adding 1 oz. of Stabilized Chlorinating Concentrated Granules per 500 gallons. Repeat this step, if necessary, to establish a positive free chlorine residual of 1.0 to 3.0 ppm.

DAILY: Add Stabilized Chlorinating Concentrated Granules prior to each use as needed based on testing with a chemical test kit to maintain a free chlorine residual of 1.0 to 3.0 ppm. A suggested dosage of ¼ ounce per 500 gallons provides this residual and should be added as indicated by daily tests for chlorine residual. The dosage required to maintain 1.0 to 3.0 ppm free chlorine residual may vary due to unusual conditions, such as high bather loads. Therefore, frequent use of a chemical test kit is recommended. Using a test kit as a guide, maintain the pH within the 7.2 to 7.8 range and total alkalinity at 80 to 100 ppm. In general, ¼ ounce Stabilized Chlorinating Granules per 500 gallons of water will raise the chlorine residual by 1.0 ppm. After daily use has ceased, add ½ oz. to 1 oz. Stabilized Chlorinating Granules per 500 gallons of water. This should be performed with circulating system operating and aeration shut off.

SUPERCHLORINATION: Use 1 oz. Stabilized Chlorinating Granules per 500 gallons, either after each use, when algae appears, chlorine odors are noted or after high bather loads occur. Repeat if necessary to establish a positive free chlorine residual. Do not use spa or hot tub until the chlorine residual has dropped below 3.0 ppm.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Keep Out Of Reach Of Children. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hand. Wear goggles or face shield and rubber gloves when handling. Use only thoroughly clean, dry utensils. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

DANGER: STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary to dissolve all material before discarding.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, do not reuse container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container in trash. Do not reuse empty container, but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

STABILIZED
chlorinating
CONCENTRATED GRANULES
BACTERICIDE □ ALGAEICIDE □ DISINFECTANT

CHEMICALS FOR
Spas
& Hot tubs

ACTIVE INGREDIENT	Sodium Dichloro-s-triazinetriene Dihydrate	99.0%
INERT INGREDIENTS		1.0%
	TOTAL	100%
Available Chlorine		55.0%

KEEP OUT OF REACH OF CHILDREN DANGER STATEMENT OF PRACTICAL TREATMENT:
FIRST AID: If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, immediately flush with cold water for at least 15 minutes. Get immediate medical attention. If inhaled, remove person to fresh air. Get immediate medical attention. If swallowed, promptly drink large quantities of water. DO NOT induce vomiting. Call a physician immediately. See back panel for additional precautions.
