FIRST AID STATEMENT

IF:	Call a poison control or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting.
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment if needed.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
HOT LINE NUMBER:	Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 1-800-4-A-DIPLOMAT.
NOTE TO PHYSICIAN:	Probable mucosal damage may contraindicate the use of gastric lavage.

ACTIVE INGREDIENT:
 Trichloro-s-triazinetrione99.3%
 OTHER INGREDIENTS.....0.7%

CHEMICAL PROPERTIES

Contains 89% Available Chlorine / Soluble in all Pool Water
No Alkali Build-up / Long-Lasting Chlorine Residual
Slow Dissolving / For use in Automatic or Floating Dispensers

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.

Once-A-Week Tarry Long-Lasting Individualized Chlorinating 8 oz. Tablets are to be used as a disinfectant and algae control in pool water. They are long-lasting and are intended to slowly meter chlorine into pool water. Once-A-Week Tarry Long-Lasting Individualized Chlorinating 8 oz. Tablets are intended for use in a tablet dispenser, in-line chlorinator, in-line feeder or other similar dispenser. In order to receive its maximum effect, use as follows:

1. Superchlorinate the pool water with fast acting Coastal Blast Shock Treatment or other chlorinating product, following label directions for that product. Do not enter pool until the chlorine residual drops to 2.0 ppm (parts per million).
2. Using Coastal Chlorine Stabilizer, adjust the cyanuric acid level in pool water to 35 ppm, following label directions.
3. Adjust the pH to the ideal range of 7.2 to 7.6 using Coastal pH Plus if the pH is below 7.2 or Coastal pH Minus if the pH is above 7.6.
4. Suggested dosage is one (1) Once-A-Week Tarry Long-Lasting Individualized Chlorinating 8 oz. Tablet per 11,500 gallons of pool water per week. Add tablet to a floating dispenser, in-line feeder or similar as needed as determined by a chlorine test kit to maintain a 1.0 to 1.5 ppm (parts per million) residual chlorine. Check water for chlorine content at regular intervals. This dosage may vary due to unusual conditions, such as heavy bather loads, heavy rains or high temperatures. During these conditions, water should be checked every 2 hours. Maintain a pH level of 7.2 to 7.6 for best results.

One (1) Once-A-Week Tarry Long-Lasting Individualized Chlorinating 8 oz. Tablet weighs approximately 8 oz. (227 grams) and WILL LAST APPROXIMATELY ONE WEEK DEPENDING ON TEMPERATURE, BATHER LOAD AND AMOUNT OF WATER FLOW. Tablets should never be thrown directly into pool as they may cause spotting or bleaching. Not recommended for splashers or wader pools.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before, eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
