

US ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF PESTICIDES PROGRAMS  
REGISTRATION DIVISION (TS-767)  
WASHINGTON, DC 20460

EPA REGISTRATION NO.

3525-124

DATE OF ISSUANCE

SEP 19 1994

TERM OF ISSUANCE

NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT  
COASTAL HOT TUBS AND SPAS  
LONG-LASTING 1/2 OZ.  
CHLORINATING TABLETS

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

QUALCO, INC.  
225 Passaic Street  
Passaic, NJ 07055

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.
2. Revise the Environmental Hazards statement to read: "This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

2 of 5

unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. "

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

**COASTAL  
HOT TUBS AND SPAS  
LONG-LASTING 1/2 OZ. CHLORINATING TABLETS**

ACTIVE INGREDIENT:  
Trichloro-s-triazinetrione.....99.3%  
INERT INGREDIENTS.....0.7%  
TOTAL 100.0%  
Available Chlorine.....89.0%

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 19 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended for the pesticide  
registered under EPA Reg. No.  
3525-124

IN DISPOSABLE FLOATING DISPENSERS

KEEP OUT OF REACH OF CHILDREN  
DANGER

**STATEMENT OF PRACTICAL TREATMENT**

FIRST AID: IF ON SKIN, brush off excess chemicals and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. IF INHALED, remove person to fresh air. Get immediate medical attention. IF IN EYES, flush with cold water for at least 15 minutes. Get immediate medical attention. IF SWALLOWED, promptly drink large quantities of water. DO NOT induce vomiting. Call a physician immediately. See back panel for additional precautions.

Net Weight: 1 lb. (16 oz.)(453.6 grams)  
16 Dispensers each containing two 1/2 oz. tablets

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.

Recommended for hot tubs and spas operating at temperatures 90°F to 105°F. Coastal Hot Tubs and Spas Long-Lasting 1/2 oz. Chlorinating Tablets are to be used as a disinfectant and algae control. Each disposable floating dispenser contains two 1/2 oz. tablets intended to slowly meter chlorine into water.

**START-UP:** When starting up a reopened or freshly filled hot tub or spa, make sure that the filtration system is clean and operating properly. Using the Coastal Hot Tubs and Spas test kit, check the pH of the water and adjust, if necessary, using pH Plus or pH Minus following label directions. Adjust the pH to the range of 7.2 to 7.8. Then chlorinate the water with Coastal Hot Tubs and Spas Stabilized Chlorinating Concentrated Granules, while the circulating system is operating and the aeration is shut off.

**DAILY:** Using the Hot Tub and Spas test kit as a daily guide, maintain the free chlorine residual of the water at 1.0 to 1.5 ppm (parts per million). If the reading obtained is below 1.0 ppm, add an additional floating dispenser of chlorinating tablets. For best results, maintain a pH of 7.2 to 7.8. If below 7.2, add Coastal pH Plus or if above 7.8, add pH Minus, following label directions. Superchlorinate hot tub and spa water periodically, with Coastal Hot Tubs and Spas Stabilized Chlorinating Concentrated Granules. High bather loads will require more frequent superchlorination to ensure, clean, clear, healthy water.

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Keep Out Of Reach Of Children. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. While handling, wear goggles of face shield and rubber gloves and use only thoroughly clean, dry utensils. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all materials before discarding this container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in tightly closed container when not in use. Store in cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container, but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.

ISOCYANURATE RED ATTACHMENT A

**LABELING:** (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

**STATEMENT OF PRACTICAL TREATMENT.**

**IF SWALLOWED:** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.
