PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding this container. Do not reuse empty container, but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.

Passaic, NJ 07055

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm.

Recommended for hot tubs and spas operating at temperatures 90°F to 105°F. Coastal Hot Tubs and Spas Long-Lasting 1/2 oz. Chlorinating Tablets are to be used as a disinfectant and algae control. Each disposable floating dispenser contains two 1/2 oz. tablets intended to slowly meter chlorine into water.

START-UP: When starting up a reopened or freshly filled hot tub or spa, make sure that the filtration system is clean and operating properly. Using a Poolchem test kit, check the pH of the water and adjust, if necessary, using pH Plus or pH Minus, following label directions. Adjust the pH to the range of 7.2 to 7.8. Then chlorinate the water with Coastal Hot Tubs and Spas Stabilized Chlorinating Concentrated Granules, while the circulating system is operating and the aeration is shut off.

DAILY: Using a Poolchem test kit as a daily guide, maintain the free chlorine residual of the water at 1.0 to 1.5 ppm (parts per million). If the reading obtained is below 1.0 ppm, add an additional floating dispenser of chlorinated tablets. For best results, maintain a pH of 7.2 to 7.8. If below 7.2, add Coastal pH Plus, or if above 7.8, add pH Minus, following label directions. Superchlorinate hot tub and spa water periodically with Coastal Hot Tubs and Spas Stabilized Chlorinating Concentrated Granules. High bather loads will require more frequent superchlorination to ensure, clean, clear, healthy water.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before, eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.
