Subject: Coastal TNT Shock  
EPA Registration Number 3525-128  
Application Date: 03/14/02  
Received Date: 04/02/02

Dear Ms. Schaub:

The following amendment submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- to revise the "first aid" statement per PR Notice 2001-1
- to update the storage and disposal statement per PR Notice 2001-6

#### Conditions

Revise the label as follows:

1. The correct name for this product is "Coastal TNT Shock" and not "Pool- Trol TNT One Shot Shock Treatment". If you wish to change the name of your product, you must submit to the Agency an amendment requesting a product name change. You may already have an alternate brand name for this name, but the Agency uses the name of record for correspondence.
2. Under the "Directions for Use" change the product name "TNT One Shot Shock Treatment" to read: "Coastal TNT Shock" throughout the label.

#### General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

#### CONCURRENCES

SYMBOL								
SURNAME								
DATE								

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Antimicrobials Division (7510C)

#### PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not re-seal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

#### STORAGE AND DISPOSAL

STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry well ventilated area away from heat and open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling, if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 3525-108
