# NON-FOAMING FOR SWIMMING POOLS

**ACTIVE INGREDIENTS:** Polyloxyethylene (dimethyliminio) ethviene (dimethyliminio) ethylené dichloride) ...... 30.0% 

# KEEP OUT OF REACH OF CHILDREN **CAUTION**

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IN CASE OF CONTACT: Immediately flush eyes or skin with plenty of water for 15 minutes. For eyes, get immediate medical attention. If skin irritation persists, get medical attention. IF SWALLOWED: Promptly drink large quantities of water. Avoid alcohol. Call a physician immediately.

# MADE ESPECIALLY FOR POOL SPECIALISTS

Net Contents: 1 at. (32 fl. oz.)(0.946 liter

Non-Foaming 30% Algaecide controls algae growth in swimming pool water without causing foaming. This product is effective at both high and low pH levels. Non-Foaming 30% Algaecide is compatible with chlorinating products and other chemicals used to treat swimming pools and may reduce the amount of those chemicals normally required. However, DO NOT mix this product with concentrated dry or liquid chlorinating products.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Non-Foaming 30% Algaecide is used to control the growth of many Non-Foaming 30% Algaecide is used to control the growth of many algae types, including green, black and mustard algae. For treatment of a freshly cleaned and filled poot, add an initial dose of 12 to 24 fl, oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. For maximum effectiveness, heavy growth of algae should be cleaned prior to use of Non-Foaming 30% Algaecide. Pools containing just visible algae growth should receive an initial dose of 24 to 36 fl. oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. After 24 hours, vacuum pool to remove algae debris. On a regular basis, (every 5 to 7 days), use a maintenance dose of 4 to 9 fl. oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. During, hot supply weather, more frequent per 10,000 gallons of water. During, hot sunny weather, more frequent additions may be necessary.

Non-Foaming 30% Algaecide will prevent the growth of most algae during the off season, when the pool is not in use. For pools which have been properly treated during the swimming season, and are free of visible algae, add 13 to 21 fl. oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. If at the end of the season, the pool has some visible algae growth, add 25 to 37 fl. oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. For best results, circulate the pool water.

prior to covering the pool for the winter.

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep Out Of Reach Of Children, Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Wear rubber gloves and goggles or face shield when handling. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

## **ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

# STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash. E.P.A. Reg. No. 3525-133 E.P.A. Est. No. 3525-NJ-1 50625 Made & Printed in U.S.A. S50625
