DISINFECTANT - Kills germs and bacteria. A-35 Dry is also virucidal, killing many of the hydrophilic and lipophilic viruses on environmental surfaces, including those associated with Asian and Hong Kong flu, colds, polio

ODOR-ODORIFERANT - A-35 Dry, as a dry powder, helps to keep rooms smelling fresh and clean.

DIRECTIONS - Put powder in a clean, dry container. Add the powder to water in a bucket or tub. Add the powder to a mop bucket or sprayer. Rub on floors and other surfaces with a clean, wet mop or vacuum pickup.

USES - A-35 Dry is a broad spectrum disinfectant for use on hard surfaces and odor-odoriferous areas. It is suitable for use on floors, walls, and certain glass, tile, stainless steel, and plastic surfaces.

Refer to A-35 Dry Bulletin TR-100 for a complete list of uses and directions for floors and other surfaces.
